Mr. Christopher Grobbel
U.S. Securities and Exchange Commission
Division of Trading and Markets
Securities and Exchange Commission
100 F Street, NE
Washington, DC 20549

Dear Mr. Grobbel:

Enclosed please find an amendment to the EDGA Exchange, Inc. ("EDGA" or the "Exchange") Form 1 for registration as a national securities exchange. Pursuant to Rule 6a-2 of the Securities Exchange Act of 1934 ("the Act"), the Exchange is filing the following:

- Form 1 Execution Page
- Annual Amendment to Form 1 including Exhibits D, I, J, K, M and N
- Tri-Annual Amendment to Form 1 including Exhibits A, B and C

The Exhibits supplement materials filed in connection with EDGA's Form 1 application for exchange registration, which the Securities and Exchange Commission approved in March 2010,¹ and its Form 1 update filed on April 19, 2013.

Very truly yours,

A handwritten signature in cursive script that reads "Jeffrey Rosenstock".

Jeffrey Rosenstock, Esq.
General Counsel

Enclosures: Original and two (2) copies of the above amendments to the Exchange's Form 1

cc: Freedom of Information Act Officer (U.S. Securities and Exchange Commission)

¹ See Securities Exchange Act Release No. 61698, 74 FR 13151 (March 18, 2010).

June 28, 2013

Mr. Christopher Grobbel
U.S. Securities and Exchange Commission
Division of Trading and Markets
Securities and Exchange Commission
100 F Street, NE
Washington, DC 20549

Re: FOIA CONFIDENTIAL TREATMENT REQUEST

Dear Mr. Grobbel:

Pursuant to 17 C.F.R Section 200.83, EDGA Exchange, Inc. (the "Exchange") requests confidential treatment for the enclosed documents and all the information contained therein.

This confidential treatment request is based upon, among other things, exemptions 4, 7 and 8 of the Freedom of Information Act, 5 U.S.C. 552(b)(4). The enclosed documents contain or relate to: privileged and confidential trade secrets and commercial and financial information relating to the Exchanges and other persons; information relating to techniques and procedures for law enforcement investigations and prosecutions; and examination, operating or condition reports prepared by the Exchanges which, as registered national securities exchanges, are responsible for the regulation and supervision of financial institutions. The Exchanges further submit that, to the extent the information provided relates to individuals, disclosure could affect those individuals' rights under the Privacy Act of 1974, 5 U.S.C. 552a.

Please contact me at (201) 942-8295 upon receipt of any requests for copies of the any of the enclosed documents, pursuant to 17 C.F.R. Section 200.83.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jeffrey Rosenstock".

Jeffrey Rosenstock
General Counsel

cc: Freedom of Information Act Officer (U.S. Securities and Exchange Commission)

EDGA Exchange, Inc.
Annual Amendment to Form 1

Everybody Needs
Some Edge

Exhibit D

Exhibit Request:

For each subsidiary or affiliate of the exchange, provide unconsolidated financial statements for the latest fiscal year. Such financial statements shall consist, at a minimum, of a balance sheet and an income statement with such footnotes and other disclosures as are necessary to avoid rendering the financial statements misleading. If any affiliate or subsidiary is required by another Commission rule to submit annual financial statements, a statement to that effect with a citation to the other Commission rule, may be provided in lieu of the financial statements required here.

Response:

1. The financials of Deutsche Börse AG are submitted in response to this Exhibit D.
 2. Direct Edge Holdings LLC filed financial statements for the year ended December 31, 2012 with the Commission pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 which include the financials for the entities listed below. They are submitted again as a reference in response to Exhibit D.
 - The financials of DECN d/b/a/ DE Route are submitted in response to Exhibit D.
 - The financials of EDGA Exchange, Inc. are submitted in response to Exhibit D.
 - The financials of EDGX Exchange, Inc. are submitted in response to Exhibit D.
 3. The financials of Eurex Global Derivatives AG, Zürich are submitted in response to this Exhibit D.
 4. The financials of Eurex Frankfurt AG are submitted in response to Exhibit D.
 5. The financials of Eurex Zürich AG are submitted in response to Exhibit D.
 6. The financials of International Securities Exchange Holdings, Inc. are submitted in response to Exhibit D.
 7. The financials of International Securities Exchange, LLC are submitted in response to Exhibit D.
 8. The financials of U.S. Exchange Holdings, Inc. are submitted in response to Exhibit D.
 9. There are no financials available for U.S. Exchange, LLC as the entity was dormant for the fiscal year ending December 31, 2012.
-

Exhibit D

Notes to the financial statements for financial year 2012

Accounting policies

Deutsche Börse AG's annual report for the financial year 2012 was prepared in accordance with the provisions of the Handelsgesetzbuch (HGB, German Commercial Code) and of the Aktiengesetz (AktG, the German Stock Corporation Act).

The total cost accounting method was chosen for the income statement.

The Company is a large corporation as defined by section 267 (3) of the HGB.

Fixed asset line items denominated in foreign currency have been translated into euro amounts using the exchange rates valid on the date of acquisition; in case of permanent impairment, the conversion is at the period-end exchange rate.

Assets and liabilities denominated in foreign currency have been translated using the ECB reference rate or the Bloomberg rates valid at the balance sheet date. If the assets and liabilities denominated in foreign currency have a maturity of one year or less, then HGB sections 253 (1) clause 1 and 252 (1) no. 4 subclause 2 were not applied.

Income and expenses were translated on the posting date at the ECB reference rate or the Bloomberg rates.

Purchased intangible assets are carried at cost and amortised using the straight-line method or valued at the lower fair value. No use was made of the option to capitalise internally generated intangible assets.

Property, plant and equipment is carried at cost. Depreciable property, plant and equipment is depreciated using the straight-line method over its useful life or valued at its lower fair value. Low-value fixed assets with acquisition costs up to €410 were written off directly in the financial year 2012 in accordance with section 6 (2) of the German Income Tax Act (EstG). In this respect, no use was made of the option granted by section 6 (2a) EStG to create a compound item.

Investments in affiliated companies stated under financial assets as well as participations are carried at the lower of cost or fair value. Loans to affiliated companies and other loans are recognised at nominal value, taking into account any permanent impairment, where applicable. Securities are carried at cost or at the lower exchange rate on the reporting date, in the event of likely permanent impairment. If the circumstances which led to a write-down no longer apply, a reversal is made, up to a maximum of the original cost.

Receivables and other assets are always carried at their nominal amount. All discernible risks are impaired individually, whilst latent risks are considered on a portfolio basis.

Provisions for pensions and other obligations have been stated along with the projected benefit obligation on the basis of actuarial tables using the "2005 G" mortality tables (generation tables) developed by Dr Klaus Heubeck, modified by statistical information gathered by the German Federal Statistical Office from 2006 to 2008.

Actuarial assumptions		
	31.12.2012	31.12.2011
	%	%
Discount rate	5.06	5.13
Salary growth	3.50	3.50
Pension growth	2.00	2.00
Staff turnover rate	2.00 ¹⁾	2.00 ¹⁾

¹⁾ Up to age 50, thereafter 0.0 percent

Calculations for the projected benefit obligation arising from the employee-financed Deferred Compensation Programme were made on the basis of an interest rate of 5.06 percent (previous year: 5.13 percent) along with actuarial tables using the "2005 G" mortality tables (generation tables) developed by Dr Klaus Heubeck, modified by statistical information gathered by the German Federal Statistical Office from 2006 to 2008.

As per section 246 (2) 2 of the HGB, the amount of pension benefits to be paid as at the balance sheet date was offset against the fair value of the asset, which is protected from any creditor claims and is intended exclusively to meet the liabilities arising from pension obligations or other similar long-term obligations to employees (plan assets). The cumulative costs of the plan assets amount to €131.5 million (previous year: €122.2 million).

The plan asset, which corresponds to a 68.5 percent share (previous year: 69.4 percent) in a special fund as defined by sections 1 and 2 (3) of the German Investment Act (InvG), had a fair value at the balance sheet date of €128.7 million (previous year: €110.5 million), which is equivalent to the current value as defined by section 36 of the InvG. This special fund is an international mixed fund (mixed special fund) with regulatory investment restrictions. In addition to replicating DJ STOXX 600 Europe, a capital protection concept is applied alongside a non-forecast-orientated trend reporting system which is key to the portfolio management. During the period under review, €2.9 million (previous year: €2.7 million) was withdrawn, which corresponds to the amount of current pension payments, and which was immediately added back to the plan asset. A total amount of €12.2 million (previous year: €23.3 million) was added to the special fund. This asset is protected from any creditor claims and is thus not repayable on demand.

The other provisions have been estimated in consideration of all known risks and unknown liabilities as at the balance sheet date and were estimated at the amount which is required to be paid according to a reasonable commercial assessment. Provisions with a maturity of more than one year are discounted using the market interest rates published by the Deutsche Bundesbank according to the remainder of their maturity.

The basis for determining provisions for the Stock Option Plan is the intrinsic value of the option, whereas the basis for determining provisions for the Stock Bonus Plan is the price of Deutsche Börse AG shares at the reporting date.

The provisions for anniversary payments and early retirement were estimated using actuarial principles of the amount to be paid, and for early retirees valued at present value. The projected unit credit method was applied as the basis of this assessment. During the period under review, the interest rate of 5.06 percent (previous year: 5.13 percent) published by the German Ministry of Finance was applied. The "2005 G" mortality tables created by Dr Klaus Heubeck (with the modifications already mentioned) were the basis of these projections.

For all hedge accounting procedures as defined by section 254 of the HGB, Deutsche Börse AG exercises the option of only stating hedges on the balance sheet to the extent that the hedge was ineffective and a negative result arises (compensatory valuation/net hedge presentation method). In such an event, a provision for contingent losses is recognised.

Deferred taxes are calculated in accordance with section 274 HGB on temporary differences between the carrying amounts according to commercial law and their taxable values. Deferred tax liabilities are only reported insofar as they exceed deferred tax assets. In view of the existing single-entity relationship for tax purposes with Clearstream Holding AG, temporary differences between the carrying amounts according to commercial law and their taxable values of these companies were accounted for at the level of the controlling company, Deutsche Börse AG. Calculating deferred taxes is based on the combined income tax rate of all the companies comprising a single-entity for tax purposes with Deutsche Börse AG, which currently stands at 25.79%.

As at 31 December 2012, the excess of deferred tax assets amounted to €12.5 million. The excess of deferred tax assets is mainly the result of differences in the carrying amounts in the provisions for pensions and their related cover assets.

In accordance with section 274 (1) (2) HGB, the Company refrained from reporting the excess of deferred tax assets. Deferred taxes are calculated on the basis of the tax rates in effect or expected in Germany on the date they are recovered.

There is currently a uniform rate of corporation tax of 15 percent plus a solidarity surcharge of 5.5 percent. Taking trade tax into account, this results in a composite tax rate of 25.79 percent. There were no carryforwards of tax losses as at the reporting date.

In accordance with section 253 (1) clause 2 of the HGB, these liabilities are treated with their respective payment amounts as deferred items.

Notes to the balance sheet

Fixed assets

The movements of fixed assets are described in detail in the appendix. In the financial year 2012, write-downs of €2.7 million (previous year: €25.9 million) were made to financial investments. These relate to loans to companies in which the company has a participating interest.

As at 31 December 2012, loans to affiliated companies totalled €996.9 million (previous year: €942.8 million). Of this, €846.9 million (previous year: €790.2 million) is related to profit participations rights issued by Eurex Frankfurt AG as part of the acquisition of International Securities Exchange Holdings, Inc. (ISE). Owing to the profit generated by Eurex Frankfurt AG there was a partial reversal of the earlier impairment in the amount of €56.7 million (previous year: €29.3 million). The participation right qualifies to receive losses of the issuer, Eurex Frankfurt AG.

Investments in affiliated companies

As at 31 December 2012, Deutsche Börse AG had investments in affiliated companies as follows:

Company	Domicile	Currency	Own equity in € thous. ¹⁾	2012 net profit loss in € thous.	Equity interest direct (indirect)
Clearstream Holding AG	Germany	€	2,115,314	215,421	100.00%

¹⁾ Includes capital reserves and retained earnings, accumulated gains or losses and net profit or loss for the year and, if necessary, further components according to the respective local GAAP

Receivables from affiliated companies

This balance sheet item contains trade receivables from affiliated companies of €31.4 million (previous year: €11.9 million) as well as other assets amounting to €221.9 million (previous year: €198.4 million). The profit transfer agreement with Clearstream Holding AG accounted for €215.4 million (previous year: €173.4 million) of the other assets.

Receivables from companies in which the company has a participating interest

This balance sheet item primarily comprises trade receivables of €1.4 million (previous year: €3.4 million) from companies in which the company has a participating interest.

Disclosures regarding financial instruments and hedging transactions according to section 285 (19) and (23) of the HGB.

At the reporting date, investments of the following derivatives were held; the financial instruments are designated as part of the hedging transactions:

Risk		Underlying transaction		Hedging instrument		Type of hedging relationship	Prospective effectiveness
	Type	Type	Amount	Risk	Amount		
Interest	Cash flows from planned long-term debt instruments	Planned issue of fixed-rate debt instruments	€300 m	Swaption and forward swap	€300 m	Micro cash flow hedge of an anticipated transaction	Maturity, currency and volume congruence

To hedge against changes in interest rates in relation to the planned issue of long-term debt instruments, Deutsche Börse AG concluded a swaption and a forward swap which mature in 2018 and a nominal amount of €150.0 million respectively in 2010. To the extent that the swaption will be exercised in 2013, Deutsche Börse AG will act as fixed rate payer for both interest rate derivatives. Along with the likely transaction (issue of a debt instrument) both derivatives together represent a hedging instrument as defined by section 254 of the HGB. On 31 December 2012 the market price of the swap was €-14.6 million; the swaption was out-of-the-money.

On 24 October 2012, Deutsche Börse AG also concluded a forward foreign exchange transaction with Eurex Services GmbH due 1 August 2013 for the purchase of USD 51 million. The US dollar purchase transaction has a negative market value of €0.6 million. There is also another forward foreign exchange transaction (sale of USD) due on 1 August 2013 for a nominal amount of USD 10 million which had a positive market value on 31 December of €0.1 million.

In the year under review, two forward foreign exchange transactions for the purchase of USD 51 million each and the sale of USD 10 million each expired.

Prepaid expenses

Prepaid expenses contain discounts for bond issues as defined by section 250 (3) of the HGB of €5.4 million (previous year: €2.1 million).

Deferred tax assets

Deutsche Börse AG does not exercise the option to recognise deferred tax assets.

Equity

Fully paid-in share capital amounts to €193.0 million (previous year: €195.0 million), divided into 193,000,000 no-par value registered shares. 2.0 million shares were cancelled in February 2012.

There were 8,921,326 treasury shares held at the end of the year (previous year: 11,600,127), representing 4.6 percent of share capital. As part of employee programmes, 116,068 shares were sold at the price of €5.1 million in the year under review and, under the terms of the acquisition of an equity investment, 5,286,738 shares were sold at the price of €255.9 million. As part of the share buyback programme, 4,724,005 shares were acquired at the purchase price of €198.2 million. Shares thus valued at year's end amounted to €412.3 million, resulting from the buyback of shares from 2005-2012.

Subject to the agreement of the Supervisory Board, the Executive Board is authorised to increase the subscribed share capital by the following amounts:

	Amount in €	Date of shareholder approval	Conclusion of approval process	Existing shareholders' pre-emptive rights may be disapplied for fractioning and/or may be disapplied if the share issue is:
Authorised share capital I	5,200,000	12 May 2011	11 May 2016	- against non-cash contributions for the purpose of acquiring companies, parts of companies, or interests in companies, or other assets
Authorised share capital II	27,800,000	27 May 2010	26 May 2015	- for cash at an issue price not significantly lower than the exchange traded share price up to a maximum amount of 10 percent of the nominal capital to issue new shares - to employees of the Company or affiliated companies with the meaning of sections 15ff of the Aktiengesetz (AktG, German Stock Corporation Act), with the pro rata amount of the share capital not allowed to exceed €3 million - against non-cash contributions for the purpose of acquiring companies, parts of companies, interests in companies, or other assets
Authorised share capital III	19,500,000	27 May 2010	26 May 2015	- N/A
Authorised share capital IV	6,000,000	16 May 2012	15 May 2017	- for the issuance of up to 900,000 new shares per year to Executive Board members and employees of the Company as well as to the management and employees of affiliated companies within the meaning of sections 15 ff. of the AktG

In addition to authorised share capital I, II, III and IV, the Company has contingent capital I that allows the issue of up to 6,000,000 shares to settle stock options under the Group Share Plan.

Disclosures to the income statement

Sales revenue

Sales revenue of €1,110.3 million (previous year: €1,280.7 million) consist mainly of €660.2 million (previous year: €765.6 million) from the Eurex electronic derivatives trading platform, €232.4 million (previous year: €306.8 million) from the cash market with the Xetra electronic trading system and floor trading as well as the central counterparty for equities, and €196.6 million (previous year: €196.9 million) from the sales and marketing of exchange data and information, as well as index development and marketing.

Other operating income

Other operating income amounts to €109.2 million (previous year: €118.8 million). This item comprises income from agency agreements with affiliated companies (€82.4 million; previous year €84.7 million), income from foreign currency translation arising from exchange rate differences (€13.5 million; previous year: €6.5 million) as well as out-of-period income from the reversal of provisions (€6.9 million; previous year €19.5 million). It also includes rental income (€0.7 million; previous year: €0.9 million) and out-of-period income from receivables individually written-down in prior years (€0.5 million; previous year: €0.5 million).

Other operating expenses

Other operating expenses amount to €522.1 million (previous year: €566.3 million), and comprise: agency fees to affiliated companies (€201.8 million; previous year €193.1 million); legal and consulting expenses (€101.5 million; previous year €146.9 million); expenses for IT services (€60.9 million; previous year €51.5 million); rental expenses (€40.0 million; previous year €38.0 million); expenses arising from marketing exchange data (€26.8 million; previous year €12.2 million); expenses for Xetra Market Services (€15.8 million; previous year: €10.9 million); expenses for the communication network (€12.9 million; previous year €11.1 million); advertising and marketing expenses (€9.3 million; previous year €10.6 million); and expenses from non-deductible input tax (€2.8 million; previous year €14.6 million). Expenses from foreign currency translation stated in the income statement include €4.6 million (previous year: €14,6 million) from exchange rate differences.

Auditor's fee

In accordance with section 285 (17) of the HGB, disclosures as to the auditor's fee are contained in the notes to the consolidated financial statements of Deutsche Börse AG.

Other financial obligations and transactions not included in the balance sheet

Other financial obligations relate to rental, lease, maintenance and other contracts.

Obligations relating to rental, lease and maintenance contracts in 2013 (€47.6 million; previous year: €69.1 million) arise mainly from long-term contracts for office space rental of €23.1 million (previous year: €23.1 million), as well as software maintenance contracts of €16.5 million (previous year: €20.4 million). Other obligations in the amount of €8.0 million (previous year: €25.6 million) relate to other rental and leasing agreements (€2.5 million; previous year: €11.6 million) and diverse other maintenance contracts in the amount of €5.5 million (previous year: €14.0 million). For financial years starting in 2014, it is anticipated that €257.6 million (previous year: €293.3 million) will be spent on these contracts.

In the financial year that ended in 2012, other obligations arose from management and agency agreements with Eurex Frankfurt AG of €178.4 million (previous year: €167.5 million) and Eurex Clearing AG of €23.4 million (previous year: €16.7 million). Deutsche Börse AG assumes that the obligations arising from agency agreements with Eurex Frankfurt AG and Eurex Clearing AG will not deviate significantly in future from the figures in 2012. The obligations owed to Eurex Frankfurt AG and Eurex Clearing AG are obligations owed to affiliated companies.

Other contracts, particularly service contracts, gave rise to financial obligations of €14.0 million in 2013 (previous year: €16.6 million), of which €10.2 million (previous year: €9.4 million) relates to IT and application support. For the financial years from 2014 onwards, these contracts are anticipated to generate expenses of €16.2 million (previous year: €43.7 million).

The Company provided a guarantee ("Patronatserklärung") in favour of Eurex Clearing AG, according to which Deutsche Börse AG is obliged to provide Eurex Clearing AG with the financial means needed to fulfil its obligations arising from its activities and in its capacity as central counterparty (CCP) for processing securities traded on the Frankfurt Stock Exchange, futures traded on the Eurex Germany and Eurex Zurich exchanges, contracts traded using the Eurex Bonds GmbH system and real repurchase agreements traded with the Eurex Repo GmbH system, within the meaning of the HGB section 340b (1 and 2). The guarantee is restricted to a maximum amount of €700.0 million. Based on the risk management system implemented by Eurex Clearing AG, particularly the Lines of Defence, as well as the fact that in the past no utilisation of Deutsche Börse AG occurred due to failure of a clearing member, Deutsche Börse AG currently assumes that utilisation resulting from the guarantee is not probable.

Referring to section 5 (10) of the statute of the Deposit Protection Fund, an unlimited statement of commitment has been issued to Clearstream Banking AG, according to which Deutsche Börse AG indemnifies the Bundesverband deutscher Banken e.V. from all potential loss claims.

Moreover, Deutsche Börse AG provides loan commitments in favour of affiliated companies and companies in which the Company has a participating interest of €72 million and €7 million respectively.

In connection with the cooperation agreement between SIX Swiss Exchange AG and Deutsche Börse AG with regard to both parties' participation in Scoach Holding S.A., Deutsche Börse AG has the right and the obligation, at the end of the cooperation after expiration or termination of the agreement, to retain the Scoach Holding S.A. (including the collateral participation in Scoach Europe AG, a wholly-owned subsidiary of Scoach Holding S.A.) as sole shareholder. This obligation results in a contingent liability for Deutsche Börse AG to SIX Swiss Exchange AG to make a compensation payment if the net financial liabilities and assets surplus to business requirements of Scoach Holding S.A. (including Scoach Europa AG), are higher than those of Scoach Schweiz AG, which will be taken over by SIX Swiss Exchange AG. On the other hand, if they are lower, a liability results for SIX Swiss Exchange AG to Deutsche Börse AG. In December 2012, SIX Swiss Exchange AG terminated the cooperation agreement with effect from 30 June 2013. With the terminating of the cooperation agreement, the joint venture will be terminated as of 30 June 2013 and the brought markets will be transferred back to the parent companies.

Provisions arising from deferred compensation were recognised in the balance sheet under employee expenses for individual subsidiaries. However, as Deutsche Börse AG has an obligation as a provider towards participating employees, a contingent liability of €17.3 million (previous year: €14.6 million) arises which is equivalent to the amount of the provisions made by the individual subsidiaries.

Other disclosures

Supervisory Board

The members of the Supervisory Board are:

--------------------	---

Executive Board

In 2012, the total remuneration of members of the Executive Board amounted to €9.5 million. Total compensation includes share-based remuneration of €2.4 million. The shares are valued at market price on the balance sheet date. The number of stock options (51,571) and the value determined at the grant date is based on a share price of Deutsche Börse AG of €46.09 being the average price during the first two calendar months of financial year 2012. See the Deutsche Börse AG management report for additional disclosures regarding Executive Board compensation.

The remuneration of former members of the Executive Board and their surviving dependents amounted to €1.6 million in 2012 (previous year: €1.6 million). A total of €34,1 million (previous year: €32.7 million) has been earmarked for pension obligations to former members of the Executive Board and their surviving dependants.

Employees

The average number of employees during the financial year 2012 was 1,001 (previous year: 1,011). On 31 December 2012, 1,012 employees, excluding the Executive Board, were employed at Deutsche Börse AG. Of these 1,012 employees, 17 are employed on a limited-term employment contract and 136 employees work part-time. 26 employees were on maternity leave or received the German parental allowance. The average of full-time equivalent (FTE) employees during the year was 933 (previous year: 915).

Intercompany agreements

As part of the concluded profit transfer agreement between Clearstream Holding AG and Deutsche Börse AG, Clearstream Holding AG is obliged to transfer its entire net income for the year to Deutsche Börse AG, less any losses carried forward from the previous year and the amount to be added to the reserves, as required by section 300 of the AktG. Simultaneously, Deutsche Börse AG is required to equalise any losses incurred at Clearstream Holding AG during the year through loss absorption, provided that such losses have not already been balanced by transfers from other retained earnings added during the term of the contract.

On 2 March 2010, Deutsche Börse AG entered into a control agreement ("Beherrschungsvertrag") with Clearstream Banking AG. As part of this agreement, Clearstream Banking AG subordinates the management of its company to Deutsche Börse AG, and Deutsche Börse AG has the right to give instructions to the Executive Board of Clearstream Banking AG with respect to the management of the company.

Combined management report

The managements reports of Deutsche Börse AG and Deutsche Börse Group were combined in accordance with section 315 (3) of the HGB in conjunction with section 289 (3) of the HGB and German Accounting Standard (GAS) 20 (22).

Group structure

Deutsche Börse AG prepares a set of consolidated financial statements. The consolidated financial statements are published in the electronic version of the German Federal Gazette and are also available at the Company's premises.

Independent Auditor's Report

To the Members of
Direct Edge Holdings LLC

We have audited the accompanying consolidated financial statements of Direct Edge Holdings LLC, which comprise the consolidated statement of financial condition as of December 31, 2012, and the related consolidated statement of operations, consolidated changes in members' equity and cash flows for the year then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Direct Edge Holdings LLC at December 31, 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

SUPPLEMENTAL DISCLOSURES

Cash payments for income taxes, net of refunds were \$3.6 million and for interest expense was \$59 thousand for the year ended December 31, 2012.

The accompanying notes are an integral part of the consolidated financial statements.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

1. Organization and Description of the Business

Direct Edge Holdings LLC, (the "Company"), a Delaware limited liability company, is the parent company of two wholly owned operating subsidiaries, Direct Edge ECN, LLC, d/b/a DE Route ("DER") and Direct Edge Inc ("DEI"). The Company has no business operations beyond its status as a holding company.

DEI is the parent company of two wholly owned subsidiaries, EDGA Exchange Inc ("EDGA") and EDGX Exchange Inc ("EDGX"), collectively the "Exchanges". EDGA and EDGX independently operate as national securities exchanges. DEI's operations are limited to facilitating connectivity and member services to both EDGA and EDGX.

DER operates as a routing broker-dealer for the Exchanges, by sending orders to other market centers for execution in accordance with the Exchanges' member order instructions and requirements. DER is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"), National Stock Exchange, Chicago Stock Exchange, CBOE Stock Exchange, Nasdaq Stock Market, New York Stock Exchange, EDGA and EDGX.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents represent short-term investments with an original maturity of less than 90 days and cash. The carrying amount of such cash equivalents approximates their fair value due to the short-term nature of these instruments. As of December 31, 2012 the balance principally consist of short term investments and cash held of \$70.7 million.

Broker Dealer and Exchange Activities

Commissions and fees earned and related expenses, including execution and clearance fees and rebates are recorded on a trade date basis. Fees include commissions and fees earned and trade expenses incurred by DER and the Exchanges. The Company pays Section 31 fees to the Securities and Exchange Commission for supervision and regulation of securities markets. This regulatory sales fee is in turn charged to the members of the Exchanges. Any amount receivable at December 31, 2012 is recorded as activity remittance fee receivable.

Market Data Revenue

As members of the Consolidated Tape Association and the Unlisted Trading Privileges plan, the Company earns market data revenue for displaying its quotes and reporting its trades. Revenue is based on the Company's quote and trade reporting activity. Revenue is recorded for the period transaction data is provided on an accrual basis.

Estimated Fair Value of Financial Instruments

Management estimates that the fair value of financial instruments recognized on the consolidated Statement of Financial Condition (including receivables, payables and accrued expenses)

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

approximates their carrying value; as such financial instruments are short-term in nature, bear interest at current market rates or are subject to frequent repricing.

Depreciation and Amortization

Furniture and fixtures, computer hardware, software, equipment and intangible assets are being depreciated on a straight-line basis over their estimated useful lives. Leasehold improvements are amortized using the straight-line method over the term of the lease or the estimated useful lives of the improvements. In accordance with the provisions of subtopic 350 of the FASB Accounting Standards Codification for Intangibles-Goodwill and other ("ASC 350"), the Company capitalizes certain costs associated with the development of internal use software at the point at which the conceptual formulation, design and testing of possible software project alternatives have been completed. The Company capitalizes employee compensation and related benefits incurred from the commencement of the preliminary software project stage. Once the product is ready for its intended use, such costs are amortized on a straight-line basis over three years. The Company reviews the amounts capitalized for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable.

Goodwill and Intangible Assets

The Company applies the provisions of ASC 350, which requires that goodwill and intangible assets with an indefinite useful life no longer be amortized, but instead, be tested for impairment annually or when an event occurs or circumstances change that signify the existence of impairment.

Income Taxes

The Company is a Limited Liability Company, and as such, does not file consolidated federal income tax returns. The Company pays state income taxes in select states where business activities require such payments.

DEI is established as a corporation and files a consolidated federal income tax return. For state and local income tax returns, DEI follows state guidelines, filing either a consolidated return, or filing separate returns for DEI and each of its subsidiaries.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the DEI consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are established when necessary to reduce deferred tax assets to an amount that, in the opinion of management, is more likely than not realizable.

The Company has adopted guidance on accounting for uncertainty in income taxes. This guidance describes how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements to determine whether the tax positions meet the "more-likely-than-not" criteria to be sustained by the applicable tax authority. Tax benefits related to positions that do not meet the "more-likely-than-not" threshold would not be recognized in the current year. The Company policy is to accrue interest and penalties associated with unrecognizable tax benefits in income tax expense in the Statement of Operations, and the corresponding liability in income taxes payable or income taxes receivable, net in the Statement of Financial Condition.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

Stock-Based Compensation

Employees of the Company participate in a stock option plan (the "Stock Plan"). The purpose of the Stock Plan is to provide long-term incentive compensation, in the form of the Company's stock-related awards, to employees.

Stock-based compensation is measured based on the grant date fair value of the awards. These costs are amortized over a period of 5 years.

Certain employees of the Company also participate in a phantom stock unit plan ("PSUP"). The PSUP was created to provide a long term incentive to employees who started at an early stage of the Company. No grants have been made under this plan since June, 2010. Terms of the PSUP are such that payment for units granted occurs only upon a change in control, as defined by the plan. Given the contingent nature of the PSUP, expense related to the settlement of units will be recorded only upon a change in control.

In 2011 and 2012, subsequent and related to two extraordinary distribution to members, the Company established Restricted Cash Awards for PSUP unit holders under the terms and conditions of the Restricted Cash Award Agreements. Such awards established deferred cash payment to be paid to each PSUP unit holder pursuant to the terms and conditions of the Restricted Cash Award Agreements.

3. Receivables from Brokers, Dealers and Clearing Organizations

Receivable from brokers, dealers and clearing organizations primarily represents net commissions of \$20.7 million, market data receivables of \$11.4 million, regulatory sales fee receivable of \$12.3 million, and connectivity and member fees receivable of \$2.3 million.

4. Goodwill and Intangible Assets

At December 31, 2012, the Company had goodwill of \$34.8 million. Goodwill of \$11.0 million resulted from the purchase of DER by its initial investor and \$23.8 million resulted from the purchase of the ISE on December 23, 2008.

At December 31, 2012, the Company had intangible assets with definitive lives of \$1.2 million, net of \$238 thousand of amortization. The net intangible assets resulted from the purchase of memberships to the Consolidated Tape Association and Unlisted Trading Privileges plan.

Under ASC 350, goodwill and intangible assets with indefinite lives are tested for impairment, at a minimum, on an annual basis, or when an event occurs or circumstances change that signify the existence of impairment. During 2012, the Company tested the goodwill and intangible assets for impairment based on its assessment of fair value of the reporting unit in comparison to its book value and concluded that there was no impairment.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

5. Fixed Assets

(Dollars in thousands)

Fixed assets comprise the following:

Computer software	\$ 19,480
Computer hardware	9,335
Equipment	1,085
Leasehold improvements	5,112
Furniture and fixtures	1,246
	<u>36,258</u>
Less: Accumulated depreciation and amortization	(24,462)
Total Fixed Assets, Net	<u>\$ 11,796</u>

6. Commitments and Contingent Liabilities

The Company and its subsidiaries, from time to time, may be subject to examinations and inquiries by various regulatory and self-regulatory bodies. In the opinion of management, based on consultation with legal counsel, any adverse outcome with regard to these potential matters would not likely have a material adverse effect on the results of operations or the financial position of the Company.

DEI has an obligation under a sublease agreement for office space with Knight Capital Group ("KCG") extended to 2021 with certain rental increases included within the agreement. Aggregate annual rent for office space at December 31, 2012 is listed below:

(Dollars in thousands)

2013	\$ 1,078
2014	1,078
2015	1,078
2016	1,097
2017	1,191
2018 and later years	3,772
	<u>\$ 9,296</u>

Occupancy expense for 2012 was \$1.2 million and is included in other expenses on the Statement of Operations.

The Company has an obligation under a lease agreement for certain hardware extended to 2013. Aggregate annual lease expense for the hardware at December 31, 2012 is listed below:

(Dollars in thousands)

2013	\$ 4,586
2014	3,049
2015	1,366
2016	80
	<u>\$ 9,081</u>

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

Expenses relating to lease agreements for hardware for 2012 were \$7.3 million and included within communication and data processing on the Statement of Operations.

7. Loans and Credit

In December 2012, DEI entered into a credit agreement with the Bank of Montreal. The agreement provides DEI a revolving credit line of up to \$50.0 million until December 7, 2015, the date of termination. The Company is a guarantor of this agreement. Terms include the ability for DEI to choose amongst interest rate options, which each have varying repayment and other terms. In addition to the interest assessed on the borrowed amount, an additional fee will be assessed on the unused portion of the \$50.0 million available as well as a non-refundable upfront fee of 0.5% on the amount of Commitment at the closing date, regardless of whether any credit is use. Under the conditions of the agreement, the Company must maintain a leverage ratio of under 2:1 and a fixed charge covered ratio of at least 1.3:1. During 2012, interest expense related to the revolver, included in the other expense line on the Statement of Operations, was \$59 thousand and the upfront fee of \$250 thousand is contained in other expense line on the Statement of Operations. At December 31, 2012, the Company had \$25.0 million in loans outstanding, the leverage ratio was .7:1 and the fixed charge ratio was 3.5:1.

8. Employee Benefit Plans

Employees of DEI are eligible to participate in a 401(k) profit sharing plan (the "Plan"). In July of 2009, the Company became its sole administrator. Under the terms of the Plan, the Company is required to make contributions to the Plan equal to 100% of the contributions made by each participant, up to certain limits. For 2012, the total expense recognized by the Company and included in Employee compensation and benefits on the Statement of Operations with respect to the Plan was approximately \$582 thousand.

In August 2010, the Company created a Stock Option Plan, in which employees receive stock units as a portion of their total compensation. Awards vest, with certain restrictions on exercisability, over the earlier of three years or upon a change in control. Subject to vesting, awards are exercisable on the earliest of a change in control, an IPO or five years from the grant date. Awards are no longer exercisable ten years from the grant date, and are canceled if employment is terminated before the end of the relevant vesting period.

The Company measures compensation cost related to the option awards based on the estimated fair value of the Company at the date of grant and utilizing assumptions such as the risk free rate and expected life of the option of 6.75 years to determine the grant price per option. For 2012, the total expense recognized by the Company and included in Employee compensation and benefits on the Statement of Operations with respect to the Stock Option Plan was \$1.6 million. The following table summarizes share activity during 2012:

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

	No. of Options (in thousand)	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2011	470	\$ 16.90
Granted	39	14.15
Vested		
Surrendered	(24)	15.82
Outstanding at December 31, 2012	485	16.73

There is \$4.5 million of unamortized compensation related to the unvested awards outstanding at December 31, 2012. The cost of these unvested awards is expected to be recognized over the weighted average remaining life of 2.8 years.

In connection with extraordinary distribution to members in 2011 and 2012, the Company established Restricted Cash Awards and related Restricted Cash Award Agreements for employees who participated in the Phantom Stock Unit Plan ("PSUP"). In December of 2012, the Board of Managers of the Company determined that the payment terms of the 2011 Restricted Cash Awards would be accelerated and paid in December 2012. The Company recorded expense of approximately \$3.4 million in December 2012 related to such payment.

9. Income Taxes

The Company is a multiple-member limited liability company that is treated as a partnership for federal income tax purposes and, accordingly, is not subject to federal and state corporate income taxes. The domestic corporate subsidiaries of the Company, DEI and the Exchanges, are subject to federal, state and local income taxes and will be included in the filing of a consolidated federal income tax return with combined and separate state and local income tax returns being filed.

The Company's provision for income taxes consists of the following:

(Dollars in thousands)

Current	
Federal	\$ 5,848
State	2,335
Total Current Tax	<u>\$ 8,184</u>
Deferred	
Federal	\$ 2,153
State	(977)
Total Deferred Tax	<u>\$ 1,176</u>
Provision for Income Tax	<u>\$ 9,360</u>

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

The difference between the Company's consolidated effective tax rate of 33.6% and the U.S. federal statutory tax rate of 35% is primarily due to an increase for state and local income taxes netted by a decrease for a change in the state rate applicable to deferred taxes and a decrease for income earned at the partnership level, which is not subject to income tax.

DEI has an effective tax rate of 37% and DEH, including DER, has an effective tax rate of 0%.

The Company's deferred tax assets/(liabilities) included in Deferred tax assets on the Statement of Financial Condition are as follows:

(Dollars in thousands)

Deferred Tax Assets	
Goodwill	40,833
Stock Compensation	1,562
Other	<u>1,400</u>
Total Deferred Tax Assets	43,794
Deferred Tax Liabilities	
Goodwill	(558)
Internally developed software	(1,449)
Other	<u>(85)</u>
Total Deferred Tax Liabilities	(2,093)
Net Deferred Tax Asset	<u>41,702</u>

Based on its recent history of cumulative earnings, the Company believes that its net deferred tax assets are more likely than not realizable and accordingly has not recorded a valuation allowance.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

As for liabilities for uncertain tax positions, the Company had no liabilities at the beginning of 2012 and no liabilities for uncertain tax liabilities at year-end. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The Company has open tax years for U.S. federal income tax and various state filings for calendar tax years ending 2008 and forward. The Company is currently under examination by the Internal Revenue Service for its partnership tax return for the tax year ended December 31, 2010. Under this examination, the Internal Revenue Service has issued a Notice of Waiver of Closing, proposing no change to the 2010 return. The Company and its subsidiaries are currently not under examination by any additional taxing jurisdictions

10. Related Party Transactions

On July 23, 2007, the Company entered into a Transition Services Agreement ("TSA") with KCG. Under the terms of the agreement, KCG would provide certain technological and administrative services, in addition to facility overhead, to the Company as it transitioned from a wholly-owned subsidiary to a majority-owned subsidiary. The contract remained in effect as the Company transitioned from a majority-owned subsidiary to an independent company. In 2012, expense related to the TSA amounted to \$193 thousand which is included in the relevant line items on the consolidated Statement of Operations. In addition to the TSA, the Company holds a sublease agreement for office space with Knight Equity Markets, an affiliate of KCG, which amounted to \$1.1 million during 2012 and is included within other expenses on the consolidated Statement of Operations.

Prior to the merger, the Company entered into a "Regulatory Services Agreement" with ISE LLC. The agreement commenced with the close of the acquisition of the ISE by the Company. Under the terms of the agreement, the ISE LLC would provide certain regulatory oversight services to the ISE Stock Exchange. In November 2010, the Company entered into a "Mutual Services Agreement, under which the ISE and the Company charge each other for mutually provided technological services. During 2012, expense related to the Regulatory Services agreement and Mutual Services Agreement was \$894 thousand, and \$2.1 million respectively. The Company charged the ISE \$813 thousand in relation to the Mutual Services Agreement.

During 2012, three members of the Company were also members of the Exchanges. During 2012, commissions earned, net of rebates paid or accrued to those members, amounted to \$20.3 million and membership and connectivity fees amounted to \$3.8 million.

The Company routes transactions to three member affiliates. These affiliates either rebate or charge fees to the Company for these transactions. During 2012 rebates received or accrued, net of transaction fees paid or accrued amounted to \$934 thousand.

11. Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

DER clears all of its securities transactions through a clearing broker on a fully disclosed basis. Accordingly, substantially all of DER's credit exposures are concentrated with the clearing broker and the Exchanges. Additionally, pursuant to the terms and conditions between DER and the clearing broker, the clearing broker has the right to charge DER for losses that result from a counterparty's failure to fulfill its obligations. DER has the ability to pursue collection from or performance of the counterparty. DER's policy is to monitor the credit standing of the clearing broker and all counterparties with which it conducts business.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

As the right to charge DER has no maximum amount and applies to all trades executed through the clearing broker, the Company believes there is no maximum amount assignable to this right. At December 31, 2012, the Company has recorded no liabilities with regard to the right.

The Company maintains its cash and cash equivalents in financial institutions, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

12. Fair Value Assets and Liabilities

Fair Value Measurement—Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance around fair value establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1—Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available. Active markets are defined as having the following characteristics for the measured asset/liability: (i) many transactions, (ii) current prices, (iii) price quotes not varying substantially among market makers, (iv) narrow bid/ask spreads and (v) most information publicly available.

Level 2—Fair value is based on significant inputs, other than Level 1 inputs, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets and liabilities, quoted market prices in markets that are not active for identical or similar assets or liabilities, and other market observable inputs.

Level 3—Fair value is based on at least one or more significant unobservable inputs for the asset or liability. The inputs reflect the Company's assumptions about the inputs market participants would use in pricing an asset or liability.

The Company did not have any assets or liabilities carried at fair value; however, it is required by US GAAP to disclose the fair value of certain financial instruments that are not carried at fair value. For the following financial instruments the carrying amount equals or approximates fair value: cash and cash equivalents, receivable and payable to brokers and dealers, rebates payable, activity remittance fees payable, accrued compensation expenses and other liabilities and long-term debt.

The Company's Level 1 financial instruments represent cash and cash equivalents.

The Company's remaining financial instruments would be characterized as Level 2.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

13. Net Capital Requirements

DER is a member of FINRA and is subject to the Uniform Net Capital Rule ("Rule 15c3-1") of the SEC, which requires the maintenance of minimum net capital, as defined, equal to the greater of \$100,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2012, Direct Edge had net capital of \$8.1 million which was \$7.9 million in excess of the amount required of \$184 thousand. The percentage of aggregate indebtedness to net capital was 34.23%.

DER is exempt from the SEC Rule 15c3-3 under Paragraph (k)(2)(ii) because all transactions are cleared through another broker-dealer on a fully disclosed basis.

14. Subsequent Events

The Company has performed an evaluation of subsequent events through April 19, 2013, which is the date the consolidated Financial Statements were issued. There have been no material subsequent events that occurred during such period that would be required to be recognized in the consolidated Financial Statements as of or for the year ended December 31, 2012.

Enclosure 3/1

Notes to the financial statements

1 Purpose of the Company

The purpose of the company is to maintain and manage interests in companies with activities related to stock exchanges, financial infrastructure and financial services both domestically and internationally; the company can also maintain interests in companies which operate their business on the company's own behalf.

The company can set up branches or subsidiaries both domestically and abroad and maintain an interest in other companies both domestically and abroad, as well as operate any business which is indirectly or directly related to the company purpose.

The company can acquire, mortgage, sell or administrate property domestically or abroad. It may enter into financing arrangements on its own behalf and that of others, as well as become a party to guarantees, sureties and similar legal transactions, specifically indemnifications for the parent company or other companies associated with the Group or third parties.

It may hold an interest in Group financing arrangements, for which purpose it may extend or receive loans on behalf of the parent company or other companies associated with the Group.

2 Share capital

The share capital, consisting of 100 restricted registered shares of CHF 1,000 each, is fully paid in and amounts to CHF 100 thousand.

Eurex Global Derivatives AG is 100% owned by Deutsche Börse AG, Frankfurt.

Eurex Global Derivatives AG was established on 12 December 2011. The share purchase agreement between Deutsche Börse AG, SIX Group AG and SIX Swiss Exchange AG governing the sale of the Swiss derivatives business, including shares of Eurex Zurich AG, was concluded on 7 June 2011 and modified on 7 November 2011. This share purchase agreement was completed on 30 April 2012, effective retroactively as of 1 January 2012.

Because the transfer of assets and contractual relationships related to the Swiss derivatives business of Eurex Zurich AG (with the exception of the Swiss franc repo market and the OTC spot market) took place in the period from January 2012 and April 2012 between SIX Swiss Exchange and Eurex Global Derivatives AG by means of singular succession, the previous year's balance sheet figures are not comparable to this year's.

3 CO 663b para. 12 Risk Assessment

Eurex Global Derivatives AG is an integral part of the Eurex Group. The risk assessment was conducted within the framework of the Group-wide risk management processes established by Eurex Clearing AG. Eurex Global Derivatives AG also relies on the risk management processes of its parent, Deutsche Börse AG. For that reason, a separate risk assessment on the part of the Board of Directors of Eurex Global Derivatives AG was waived.

Enclosure 3/2

Notes to the financial statements

Accounting policies

As a general rule, the historical cost principle has been adopted for the financial statements. This is based on the principle of individual valuation of assets and liabilities. Notes on any deviations from this principle are provided on the relevant balance sheet items.

Cash

Cash includes cash in hand, balances with banks and in postal accounts as well as demand and time deposits payable within no more than 90 days. These are valued at their nominal values.

Participations and certificates of participation (loans)

Participations and certificates of participation (loans) are stated at their acquisition price less accumulated amortisation.

Receivables

Receivables are stated at their nominal value.

Provisions

Provisions are formed as required for operational reasons.

Taxes

Tax provisions are reserved on a full accrual method basis.

<i>4 Certificates of participation (loans)</i>		
B-series certificates of participation - Eurex Frankfurt AG	175.863	-
Total	175.863	-

Shares of Eurex Zurich AG and the B-series certificates of participation from Eurex Frankfurt AG were included in the share purchase agreement dated 7 June 2011 between SIX Swiss Exchange AG and Eurex Global Derivatives AG (see also 2 Share Capital).

The share capital of Eurex Zurich AG is held in equal shares of 50% each by Eurex Global Derivatives AG, Zurich, and Deutsche Börse AG, Frankfurt. The share capital amounts to CHF 10 million and is fully paid in.

The certificates of deposit issued by Eurex Frankfurt AG have a total nominal value of USD 2,600,000,000.00 and are divided into 260,000 participation rights, each with a nominal value of USD 10,000.00, each having equal rights. Of these, there are 221,000 A-series participation rights and 39,000 B-series. Series A is owned by Deutsche Börse AG, while series B was transferred from SIX Swiss Exchange AG to Eurex Global Derivatives AG. These participation rights may only be transferred to companies affiliated with participation certificate holders. The participation rights have an indefinite term.

The B-series certificates of participation from Eurex Frankfurt AG, Frankfurt, were posted by SIX Swiss Exchange AG at a carrying amount of CHF 462,189,000.00. Due to the likelihood of permanent impairment, they were written down to a value of CHF 175,862,901.87. This impairment is due to the fact that the certificates were part of losses sustained by Eurex Frankfurt AG.

5 Fire insurance value of property, plant and equipment

Eurex Global Derivates AG, Zurich, does not own any property, plant or equipment.

6 Contingent liabilities

Deutsche Börse AG has issued a guarantee in favour of Eurex Clearing AG according to which Deutsche Börse AG is required to provide Eurex Clearing immediately with such financial means (up to EUR 700,000,000.00) as are needed at any time to fulfil its obligations arising from its clearing activities in those markets explicitly mentioned in the guarantee.

As a company affiliated with Deutsche Börse AG, Eurex Global Derivatives AG has entered into an indemnification agreement for 15% of the risk related to the guarantee mentioned above. This amount is limited to EUR 105,000,000.00 (15% of EUR 700,000,000.00).

There are no other matters that are required to be reported under Article 663b of the Code of Obligations.

Enclosure 4

Proposal on the appropriation of the unappropriated surplus

	31.12.2012	31.12.2011

Notes to the financial statements, financial year 2012

Accounting policies

The annual report of Eurex Frankfurt AG (hereinafter referred to as "Eurex Frankfurt") for financial year 2012 was prepared in accordance with the provisions of the Handelsgesetzbuch (HGB, German Commercial Code) and the Aktiengesetz (AktG, German Stock Corporation Act).

The total cost accounting method was chosen for the income statement.

The Company is a medium-sized corporation as defined by section 267(2) of the HGB.

Fixed asset line items denominated in foreign currency have been translated into euro amounts using the exchange rates valid on the date of acquisition; in case of permanent impairment, the conversion is at the period-end exchange rate.

Assets and liabilities denominated in foreign currency have been translated using the ECB reference rate or the Bloomberg rates valid at the balance sheet date. If the assets and liabilities denominated in foreign currency have a maturity of one year or less, then HGB sections 253 (1) clause 1 and 252 (1) no. 4 subclause 2 were not applied.

Expenses and income in foreign currency were translated on the posting date at the ECB reference rate or the Bloomberg rates.

Purchased intangible assets are carried at cost and amortised using the straight-line method or valued at the lower fair value.

Property, plant and equipment are carried at cost. Depreciable property, plant and equipment are depreciated using the straight-line method over their useful life or valued at their lower fair value. For movable assets, the tax simplification rules regarding the depreciation start date are applied in their valid form on the respective date of acquisition. Low-value fixed assets with acquisition costs up to €410 were written off directly in the financial year 2012 in accordance with section 6 (2) of the German Income Tax Act (EStG). In this respect, no use was made of the option granted by section 6(2a) EStG to create a compound item.

Investments in affiliated companies stated under financial assets and other loans are carried at cost or the lower of fair value.

Receivables and other assets are always carried at their nominal amount. Recoverability of receivables is considered individually, whilst latent risks are considered on a portfolio basis.

Provisions for pensions and other obligations have been stated along with the projected benefit obligation on the basis of actuarial tables using the "2005 G" mortality tables (generation tables)

developed by Dr Klaus Heubeck, modified by statistical information gathered by the German Federal Statistical Office from 2006 to 2008.

Actuarial assumptions		
	31.12.2012	31.12.2011
	%	%
Discount rate	5.06	5.13
Salary growth	3.50	3.50
Pension growth	2.00	2.00
Fluctuation rate (up to age 50, thereafter 0.0 percent)	2.00	2.00

Calculations for the projected benefit obligation arising from the employee-financed Deferred Compensation Programme were made on the basis of an interest rate of 5.06 percent (previous year: 5.13 percent) along with actuarial tables using the "2005 G" mortality tables (generation tables) developed by Dr Klaus Heubeck, modified by statistical information gathered by the German Federal Statistical Office from 2006 to 2008.

As per section 246 (2) of the HGB, the amount of pension benefits to be paid as at the balance sheet date was offset against the fair value of the asset, which is protected from the claims of creditors and is intended exclusively to meet the liabilities arising from pension obligations or other similar long-term obligations to employees (plan assets). The accumulated acquisition costs of this asset are €13,778 thousand (previous year: €11,321 thousand).

The total asset, which corresponds to a 7.5 percent share in a special fund as defined by section 1 in conjunction with section 2 (3) of the German Investment Act (InvG), had a fair value at the balance sheet date of €14,060 thousand (previous year: €10,738 thousand), which is equivalent to the current value as defined by section 36 of the InvG. During the period under review, a dividend of €51 thousand (previous year: €11 thousand) was paid, which corresponds to the withdrawal for current pension payments, and which was immediately added back to the plan asset.

A separate asset in the amount of €2,457 thousand (previous year: €2,239 thousand) was also added. This asset is protected from any creditor claims and is thus not repayable on demand.

The other provisions have been estimated in consideration of all known risks and unknown liabilities as at the balance sheet date and were estimated at the amount which is required to be paid according to a reasonable commercial assessment, whereas the basis for determining provisions for the Stock Bonus Plan is the price of Deutsche Börse AG shares at the reporting date. The provisions for anniversary payments and early retirement were estimated using actuarial principles of the amount to be paid, and for early retirees valued at present value. The projected unit credit method was applied as the basis of this assessment. During the period under review, the interest rate of 5.06 percent (previous year: 5.13 percent) published by the Bundesbank

(German Central Bank) was adopted. The "2005 G" mortality tables created by Dr Klaus Heubeck (with the modifications already mentioned) were the basis of these projections.

Deferred taxes are calculated in accordance with section 274 HGB on temporary differences between the carrying amounts according to commercial law and their taxable values. Deferred tax liabilities are only reported insofar as they exceed deferred tax assets. In view of the existing single-entity relationship for tax purposes with Eurex Clearing AG, Eurex Repo GmbH and Eurex Services GmbH, temporary differences between the carrying amounts according to commercial law and their taxable values of these companies were accounted for at the level of the controlling company, Deutsche Börse AG. Calculating deferred taxes is based on the combined income tax rate of all the companies comprising a single-entity for tax purposes with Eurex Frankfurt, which currently stands at 26.01 percent.

As at 31 December 2012, the excess of deferred tax assets amounted to €3.1 million. The excess of deferred tax assets is mainly the result of differences in the carrying amounts in the provisions for pensions, their related cover assets and non-current assets.

In accordance with section 274 (1) (2) HGB, the Company refrained from reporting the excess of deferred tax assets. Deferred taxes are calculated on the basis of the tax rates in effect or expected in Germany on the date they are recovered.

There is currently a uniform rate of corporation tax of 15 percent plus a solidarity surcharge of 5.5 percent. Taking trade tax into account, this results in a composite tax rate of 26.01 percent. There were no carryforwards of tax losses as at the reporting date.

In accordance with section 253 (1) clause 2 of the HGB, these liabilities are treated with their respective payment amounts as deferred items.

Notes to the balance sheet

Noncurrent assets

The performance of noncurrent assets is described in detail in the appendix.

Investments in affiliated companies

As at 31 December 2012, Eurex Frankfurt had investments in affiliated companies as follows:

Company	Domicile	Own equity in thous.	2012 net profit loss in € thous.	Equity interest direct (indirect)
Eurex Bonds GmbH	Germany	7,515	1,429	79.44 %

¹⁾ Before profit transfer

Equity investments

As at 31 December 2012, Eurex Frankfurt held a direct stake of at least 20 percent in the following companies:

Company	Domicile	Equity	Net profit/loss 2012	Equity interest direct (indirect)
Direct Edge Holdings, LLC	US	USD 126,290 thousand	USD 17,135 thousand	(31.54 %)
The Options Clearing Corporation, USA	US	USD 12,766 thousand ¹⁾	USD 1,829 thousand	(20.00 %)

Hanweck Associates, LLC, USA	US	USD 126 thousand	USD -951 thousand	(26.44 %)
------------------------------	----	------------------	-------------------	-----------

¹⁾ Figures as at 31 December 2011

Receivables from affiliated companies

This item includes receivables from products and services in the amount of €9,300 thousand (previous year: €45,468 thousand), receivables from profit pooling agreements in the amount of €98,246 thousand (previous year: €65,563 thousand) and receivables from cash pooling, including interest accruals in the amount of €273,923 thousand (previous year: €194,157 thousand).

Equity

Fully paid-in share capital (subscribed capital) amounts to €6,000,000, divided into 6,000,000 no-par value registered shares.

The Company's capital reserves are €7,158 thousand (unchanged versus the previous year).

Issued participation certificates are recognised as equity. The whole of the net profit for the year in 2012 in the amount of €86,292 thousand (previous year: €33,548 thousand) was allocated to participatory capital, which as at 31 December 2012 amounted to €971,093 thousand (previous year: €884,801 thousand). As the fair value of the plan asset is higher than its acquisition cost when deferred tax liabilities are taken into account, there is a block on distributions in accordance with section 268 (8) of the HGB in the amount of € 209 thousand.

Provisions for pensions and other employee benefits

Pension liabilities on the basis of HGB section 246 (2) clause 2	
	€ thous.
Pension obligations payable	15,764

	14,309

Liabilities

Liabilities are divided into the categories below. Lien rights or similar rights are not included in liabilities.

Figures in € thousand	Total amount	Thereof: up to 1 year
Trade payables (previous year)	2,068 (2,257)	2,068 (2,257)
Liabilities towards affiliated companies (previous year)	692,461 (662,117)	189,461 (159,117)
- of which trade payables (previous year)	12,283 (14,683)	12,283 (14,683)
- of which other liabilities (previous year)	680,178 (647,434)	177,178 (144,434)
Other liabilities (previous year)	1,732 (4,499)	1,732 (4,499)
- of which from taxes (previous year)	1,601 (3,763)	1,601 (3,763)
Total liabilities (previous year)	696,261 (668,873)	193,261 (165,873)

Liabilities towards affiliated companies in the amount of €503,000 thousand (previous year: €0) concern a loan with a maturity of more than one year, but less than five years. The loan may be terminated at any time by the creditor.

Disclosures to the income statement

Sales revenue

The Company does not generate any sales revenue. The connection fees generated by Eurex Frankfurt in the year under review were transferred in full to Deutsche Börse AG and Eurex Zürich AG.

Other operating income

Other operating income amounted to €130,801 thousand (previous year: €154,997 thousand) and mainly comprises revenue from management for DBAG (less the portion attributable to Eurex Clearing AG) amounting to €112,581 thousand (previous year: €128,589 thousand) and for Eurex Zürich AG amounting to €3,259 thousand (previous year: €6,222 thousand); revenue from agency agreements for DBAG (€6,261 thousand; previous year: €8,773 thousand) and for other Group companies (€3,124 thousand; previous year: €2,872 thousand); revenue from provision of price information for DBAG (€2,468 thousand; previous year: €2,468 thousand); revenue from services for European Energy Exchange, Leipzig (EEX) towards Deutsche Börse AG (€1,117 thousand; previous year: €1,720 thousand).

Other operating expenses

Other operating expenses amounted to €102,824 thousand (previous year: €103,121 thousand) and mainly comprised costs arising from agency agreements (€40,089 thousand; previous year: €43,796 thousand), costs for pricing and securities services (€30,020 thousand; previous year: €32,924 thousand), non-deductible input tax (€14,583 thousand; previous year: €11,425 thousand), general consulting costs (€9,527 thousand; previous year: €6,877 thousand), costs for advertising and marketing (€3,120 thousand; previous year: €3,001 thousand), costs for travel, hospitality and representation (€1,932 thousand; previous year: €1,678 thousand), and expenses relating to currency translation (€152 thousand; previous year: €322 thousand).

Auditor's fee

In accordance with section 285 (17) of the HGB, disclosures as to the auditor's fee are contained in the notes to the consolidated financial statements of Deutsche Börse AG.

Other financial obligations

Other financial obligations relate to lease, maintenance and other agreements arising from internal obligations. In financial year 2013, payments to affiliated companies amounting to approximately €36,591 thousand (previous year: €44,613 thousand) will be required. Obligations arise from agency agreements towards DBAG (€31,795 thousand; previous year: €39,383 thousand), towards U.S. Exchange Holdings (€4,686 thousand; previous year: €5,136 thousand) and towards Clearstream Banking AG (€110 thousand; previous year: €94 thousand). In addition, financial obligations exist in association with the use of various index data as product underlyings, for example towards STOXX Ltd. The associated costs depend on the contracts negotiated in the year under review in the respective products; for 2013, costs amounting to around €21,102 thousand (previous year: €25,412 thousand) are to be anticipated.

Furthermore, there are also financial obligations in 2013 towards KRX in the amount of €2,547 thousand for the provision of volume-related index licences traded on the leading Korean index KOSPI, and for leasing contracts in the amount of €246 thousand).

Other disclosures

Supervisory Board

The members of the Supervisory Board are:

Dr. Hugo Bänziger Chairman	Chairman of the Supervisory Board, Eurex Clearing AG, Frankfurt/Main President of the Board of Directors of Eurex Zürich AG, Zurich, Professor, London School of Economics, London (member until 15 August 2012, Chairman since 16 August 2012)

Gregor Pottmeyer	Member of the Executive Board, Chief Financial Officer, Deutsche Börse AG, Frankfurt am Main
Dr. h.c. Petra Roth GmbH	Former Mayor of Frankfurt am Main Member of the Advisory Council of Consileon Business Consultancy Frankfurt/Main, (since 17 September 2012)

Members of the Supervisory Board who left in 2012

Prof. Dr. oec. HSG Peter Gomez <i>Chairman</i>	Chairman of the Supervisory Board, Eurex Clearing AG, Frankfurt/Main President of the Board of Directors of Eurex Zürich AG, Zurich, and SIX Group AG, Zurich, Professor of Business Studies, University of St. Gallen, St. Gallen (until 30 April 2012)
Walter Jürg Baumann	Managing Director, Credit Suisse AG, Zurich (until 30 April 2012)
Matthias Frisch	CEO, UBS Investment Bank Switzerland, Zurich (until 30 April 2012)
Dr.-Ing. Michael Kuhn	Member of the Executive Board, Chief Information Officer, Deutsche Börse AG, Frankfurt/Main until 31 December 2012)
Erik Tim Müller	Head of Department, Investor Relations & Treasury, Deutsche Börse AG, Frankfurt/Main (Vice Chairman of the Supervisory Board from 4 May 2012 until 15 August 2012)
Dr. Roger Müller	Managing Director, Legal Affairs, Deutsche Börse AG, Frankfurt/Main (until 16 September 2012)
Dr. Martin Reck	Managing Director, Group Strategy, Deutsche Börse AG, Frankfurt/Main (until 16 September 2012)
Dr. Urs Rügsegger	Chairman of the Group Executive Board, SIX Group AG, Zurich (until 30 April 2012)
Jacques de Saussure	Managing Partner, Pictet & Cie, Banquiers, Geneva (until 30 April 2012)

Executive Board

The members of the Executive Board are:

Andreas Preuß <i>Chairman</i>	Chief Executive Officer
Jürg Spillmann <i>Vice Chairman</i>	responsible for Information Technology
Dr. Thomas Book	responsible for Clearing/CCP
Gary Katz	responsible for the International Securities Exchange
Michael Peters	responsible for Sales & Marketing
Peter Reitz	responsible for Business Development, Product Development and services in the energy market

In 2012, the total compensation of members of the Executive Board amounted to €4,696 thousand (previous year: €4,817 thousand). Total compensation includes share-based remuneration in the amount of €1,265 thousand (previous year: €913 thousand). For one member of the Executive Board the grant date for share-based remuneration is in 2012, and for the remaining members the grant date is in 2013. In the year under review, the corresponding shares were valued at the market price on the balance sheet reporting date. The estimated number of shares (31,833) is based for one member of the Executive Board on a Deutsche Börse AG share price of €46.09, which is the average price in the first two calendar months of financial year 2012, and for the remaining members on the price of the Deutsche Börse AG share as at balance sheet date. Eurex Frankfurt paid €3 thousand in rental deposits for one member of the Executive Board in the previous year.

A total of €2,527 thousand (previous year: €2,373 thousand) has been reserved for pension obligations to former members of the Executive Board and their surviving dependents.

Employees

During the year under review, the average number of employees was 171.3 (previous year: 154.0). As at 31 December 2012, the number of employees at Eurex Frankfurt (excluding the Executive Board) was 172 (previous year: 164). Of these, 5 (previous year: 2) have a temporary employment contract, and 20 (previous year: 50) are part-time employees. There were 4 (previous year: 3) employees away on maternity leave or as recipients of the German parental allowance. There was an average of 150.9 full-time equivalent (FTE) employees during the year (previous year: 151.1).

Management report for the 2012 financial year

Business and operating environment

General situation of the Company

The Executive Board of Eurex Frankfurt Aktiengesellschaft (hereinafter referred to as: Eurex Frankfurt) considers the business trend in 2012 to have been even more challenging than in the previous year.

The economic environment in 2012 was dominated by the European debt crisis. The longstanding uncertainty regarding the overall economic trend going forward, especially in the eurozone, had a generally paralysing effect on financial market participants. This was compounded by far-reaching regulatory reform proposals by policymakers, whose implications for market structures and business models cannot as yet be fully assessed. This economic and regulatory framework prompted institutional clients to act more cautiously and to exercise restraint in their trading activities. As a result, there was a year-on-year decline in the use of exchange-traded and centrally cleared derivatives – on both Deutsche Börse Group's derivative markets and on derivative markets operated by other stock exchange organisations across the world.

In 2012, a total of 2,292.0 million contracts were traded on Deutsche Börse Group's derivative markets (Eurex and International Securities Exchange, hereinafter referred to as: ISE), a decrease of 19 percent on the previous year (2011: 2,821.5 million).

The Eurex trading volume in European futures and options was 1,660.2 million contracts, a decline of 19 percent versus the prior year (2011: 2,043.4 million).

The trading volume for the US options traded on the ISE was down by 19 percent to 631.8 million contracts (2011: 778.1 million).

Clearing

As well as derivatives trading, Eurex operates Eurex Clearing, Europe's leading clearing house. Besides its function as a central counterparty for clearing and the risk management of products from linked exchanges such as Xetra®, Eurex®, Eurex Bonds®, Eurex Repo®, European Energy Exchange (EEX) and Irish Stock Exchange, Eurex Clearing offers services for futures and options on equities and fixed-income products traded off the order book whose contract specifications are comparable with Eurex contracts.

On 13 November 2012, Eurex Clearing launched EurexOTC Clear, the new clearing offering for over-the-counter (OTC) interest rate swaps, thus creating an environment in which institutional investors can be connected to its clearing platform in time before the mandatory clearing of OTC derivatives set out in the European Market Infrastructure Regulation (EMIR) at EU level takes effect. Numerous well-known banks have cooperated with Eurex Clearing and supported the development and launch process. Thirteen banks have already been admitted as market participants and have successfully processed their first interest rate swap transactions via

EurexOTC Clear. The new clearing provision for OTC derivatives is specially tailored to the needs of institutional clients and ascribes great importance to security and efficiency.

With its Individual Clearing Model, Eurex Clearing offers completely individual booking (segregation) of customer positions and collateral. The collateral and trading positions therefore benefit from optimum protection and are immediately transferable if a clearing member defaults, enabling customers to continue their trading activities without interruption.

Furthermore, Eurex Clearing has become the first European clearing house to introduce a central counterparty for the bilateral securities lending market. This offering enables customers to make more efficient use of capital and simplify operations. Upon completion of the pilot phase, the new service will be extended to European lending markets for equities, exchange-traded funds (ETFs) and fixed-income securities.

Distribution

The number of market participants linked directly to the Eurex network fell to 426 in the year under review of 2012 (2011: 436). Those who left were predominantly market participants with low trading activity and their departure was based on their commercial decision against a direct link.

In 2012, the Eurex derivatives exchange again pressed ahead with its expansion in the Asia-Pacific region via initiatives involving Asian partners, with memorandums of understanding (MoUs) being signed between Deutsche Börse and China Financial Futures Exchange (CFFEX), China Futures Association (CFA) and, separately, with GreTai Securities Market (GTSM) from Taiwan. Under these MoUs, both partners aim to achieve a comprehensive exchange of information with a view to furthering the ongoing mutual development of the financial markets.

In March 2012, Eurex signed a further MoU with Singapore Exchange (SGX), making it easier for participants to gain access to both marketplaces. The connection between the two companies' co-location computer centres in Singapore and Frankfurt am Main gives market participants a straightforward link to the other exchange's markets in each case.

Product innovations

New products give market participants fresh impetus to develop their investment, hedging and arbitrage strategies, thus generating additional trading volumes. The products launched by Eurex in the 2012 reporting year included various equity, equity index, interest rate, commodity and dividend derivatives. The futures contracts on French government bonds, for example, show that new products and asset classes not only expand the portfolio, but can also make a sustained contribution to value. Eurex generated a trading volume of 4.3 million contracts in the year under review with the OAT (Obligations Assimilables du Trésor – OAT) futures launched in April 2012, which are based on notional long-term bonds issued by the French Republic. The trend in the

futures on Italian government bonds that were launched in 2009 remained similarly positive. Dividend derivatives, which are relative newcomers, offer a further example of the success of new products. Trading volumes in these products rose again in 2012, this time by 15 percent to 6.9 million contracts (2011: 6.0 million). In volatility index derivatives, Eurex generated an increase at an even sharper rate of almost 120 percent to 5.3 million contracts in 2012 (2011: 2.4 million).

When launching new products, alongside proprietary developments Eurex also focuses on cooperation agreements with partner exchanges. The partnership with Korea Exchange (KRX) in relation to a product on Korea's benchmark KOSPI index that has been available for trading on Eurex since 30 August 2010 has been particularly successful. The product became one of the strongest index option contracts on Eurex in 2012, almost doubling its volume during the year to 32.4 million contracts (2011: 17.4 million). However, the Korean supervisory authority ordered an increase in the minimum contract size in the domestic market in June 2012, which has since led to a fall in the average contract volumes traded each day.

New trading architecture

In early December 2012, Eurex launched a new trading architecture to which it will gradually migrate the entire portfolio of tradeable contracts. The changeover is likely to be completed in May 2013. The migration means that market participants will benefit from far better performance and enhanced functionalities alongside the existing reliability in terms of system stability and availability. The new system is based on Deutsche Börse Group's global trading infrastructure, which was already successfully launched at ISE. It offers greater flexibility, thus enabling shorter times to market in launching new products and functionalities. The high-performance messaging architecture ensures lower latencies and faster communication.

Ownership structure

Deutsche Börse AG completed the full acquisition of the 50 percent stake held by SIX Swiss Exchange in Eurex Frankfurt's parent company, Eurex Zürich AG, on 30 April 2012 with effect from 1 January 2012. Deutsche Börse AG has since indirectly held all the shares in Eurex Zürich AG and Eurex Frankfurt.

Overview of business development in the year under review

At €86.3 million, Eurex Frankfurt posted a net profit that was up by €52.7 million on the previous year; this was largely due to the far higher income from profit transfer agreements.

The report will now go on to examine the trend in trading and clearing volumes at Eurex Frankfurt in detail. On the basis of the existing agreements and the transfer of revenues to Deutsche Börse AG and Eurex Global Derivatives AG, these have no direct influence on Eurex Frankfurt's earnings, financial and asset situation.

In 2012, a total of 2,292.0 million contracts were traded on Deutsche Börse Group's derivative markets (Eurex and ISE), a decrease of 19 percent on the previous year (2011: 2,821.5 million). This equates to a daily average of around 9.0 million contracts (2011: 11.1 million). The Eurex trading volume in European futures and options was 1,660.2 million contracts, a decline of 19 percent versus the prior year (2011: 2,043.4 million). The trading volume in US options on the ISE was also down against the backdrop of the weak overall market trend and a market environment characterised by intense competition: during the year under review, market participants traded 631.8 million contracts, 19 percent down on the previous year (2011: 778.1 million). The ISE's market share of US equity options was 17.0 percent in 2012 (2011: 18.2 percent).

European equity index derivatives were again the product group generating the highest sales revenue. Trading in these derivatives saw a year-on-year decrease of 20 percent to 770.4 million contracts (2011: 959.8 million). Although contracts on the EURO STOXX 50 remained the most heavily traded products by some margin (315.2 million futures and 280.6 million options), derivatives on European STOXX indices were impacted both by the debt crisis in Europe and the lack of trust in the single currency. 413.1 million contracts were traded in the equity derivatives product group (single stock options and futures) in 2012, a decrease of 8 percent (2011: 450.5 million).

The trading volume in the interest rate derivatives product group fell by 25 percent to 470.4 million contracts (2011: 630.4 million). The consistently low level of key rates and persistently high yield spreads for some euro area countries versus Germany meant that investments in government bonds were relatively unattractive. As a result, hedging on German government bonds solely via derivatives was no longer considered adequate by many investors. However, Eurex registered a rise in the number of contracts involving trading in alternative hedging instruments such as futures on French or Italian government bonds.

As well as the futures and options business, Eurex Frankfurt conducts OTC repo trading for a wide range of fixed-income securities – including government bonds and covered bonds such as the Jumbo Pfandbrief – via Eurex Repo. The Euro GC Pooling product for trading collateral recognised by the European Central Bank (ECB) has proved to be especially valuable during the liquidity crisis on the financial markets.

Eurex Repo achieved an average outstanding volume of €234.7 billion in 2012 (2011: €276.6 billion, single counting for both years). While the euro market, with a rise of 19 percent to €36.1 billion, set a new record (2011: €30.3 billion, single counting in each case), there was a significant decline in the average outstanding volumes for the Swiss franc repo market. This was predominantly due to the interest rate policy measures pursued by the Swiss National Bank (SNB)

to lower the value of the Swiss franc, and also to the fall in issuance of its own money market paper (SNB bills).

GC Pooling, the collateralised money market which Eurex Repo operates jointly with Eurex Clearing and Clearstream, again proved to be a reliable liquidity pool for market participants. The average outstanding volume in this market increased by 23 percent to the new record of €145.4 billion in 2012 (2011: €118.2 billion; single counting for both years). GC Pooling enables balance-sheet friendly and anonymous money market trading in which standardised collateral baskets (a group of securities with similar quality features, such as issuer credit rating) are traded and cleared via a central counterparty (Eurex Clearing). Eurex Repo generates revenues from the fees charged for trading and clearing repo transactions.

In the fourth quarter of 2012, GC Pooling was extended to non-financial institutions (GC Pooling Select). Banks' corporate clients have since been able to utilise the collateralised financing offering with central clearing, thus minimising the counterparty risk for their investments.

In conjunction with institutional market participants, Eurex Frankfurt operates Eurex Bonds, the international electronic trading platform for interbank bond trading. Trading volumes on Eurex bonds were up by 2 percent in the year under review of 2012 to €119.7 billion (single counting, 2011: €117.2 billion). The positive overall performance was due to the increased need for investments in issues with high-quality ratings.

Employees

In the 2012 financial year, the number of staff employed by Eurex Frankfurt increased to 172 (previous year: 164) employees as at the reporting date of 31 December 2012. On average over the 2012 financial year, 171.3 (previous year: 154.0) employees worked at Eurex Frankfurt.

The turnover rate during the course of the 2012 financial year was 4.1 percent (previous year: 3.90 percent).

Eurex Frankfurt employs staff at three locations (as at 31 December 2012):

Location	Number of employees
Frankfurt	155
Hong Kong	6
Singapore	11
Total	172

The employee age structure at Eurex Frankfurt as at 31 December 2012 was as follows:

Age bracket	Number of employees	Percent
< 30 years	19	11.0%
30 - 39 years	51	29.7%
40 - 49 years	79	45.9%
50 > years	23	13.4%
Total	172	100.0%

As at 31 December 2012, the breakdown of employees' length of service was as follows:

Length of service with Deutsche Börse Group	Number of employees	Percent
< 5 years	55	32.0%
5 - 15 years	74	43.0%
15 > years	43	25.0%
Total	172	100.0%

As at 31 December 2012, 72.09 percent (previous year: 72.56 percent) of Eurex Frankfurt's employees were graduates. This figure is calculated on the basis of the number of employees holding a degree from a university, university of applied sciences or dual university combining professional studies with practical training, and employees who have completed studies abroad.

The average number of training days at Eurex Frankfurt was 2.1 (previous year: 3.2) days per member of staff.

Results of operations, financial position and net assets

The Company does not report any sales revenue. The connection fees generated by Eurex Frankfurt in the 2012 financial year were transferred in full to Deutsche Börse AG (hereinafter referred to as "DBAG") and Eurex Global Derivatives AG (hereinafter referred to as "EGAG").

Other operating income amounted to €130.801 million (previous year: €154.997 million), a decrease of 15.6 percent on the previous year. The decline in the current year is primarily a result of lower operating payments to Eurex Frankfurt based on provisions in the shareholders' agreement between DBAG and EGAG.

Other operating expenses amounted to €102.824 million, in line with the prior year level (previous year: €103.121 million). The slight fall in the current year is primarily a result of lower expenses

from agency agreements of €40.089 million (previous year: €43.796 million) and for purchases of price data and index licences of €23.882 million (previous year: €29.775 million).

Income from profit transfer agreements rose to €98.246 million (previous year: €65.563 million). This was due to the positive net profit of Eurex Services GmbH (€86.754 million; previous year: €55.770 million).

Impairments on financial assets and current securities totalled €0 thousand. In the previous year, charges in connection with a market value adjustment of plan assets were incurred in the amount of €356,000 thousand.

Because the participatory capital absorbed a share of Eurex Frankfurt's losses in previous years, the net profit recognised in the year under review of €86.292 million was transferred to participatory capital. An unappropriated surplus of zero was then recognised as at 31 December 2012.

Eurex Frankfurt's fixed assets amount to €1,322.388 million (previous year: €1,297.14 million). They primarily consist of stakes in affiliated companies. The Company's holdings of intangible assets and property, plant and equipment are limited. This is because Eurex Frankfurt is provided with the software required to operate the derivatives market by Deutsche Börse AG and EGAG at no cost. All the other operating resources required to run the derivatives market are provided by Deutsche Börse AG on the basis of agency agreements. The extent to which fixed assets are covered by equity is 74 percent (previous year: 69 percent).

Current assets amount to €395.796 million (previous year: €311.346 million). The increase is predominantly due to the rise in receivables from affiliated companies, which amounted to €381.469 million (previous year: €305.188 million), and in particular to receivables from profit transfer agreements of €98.246 million (previous year: €65.563 million) and receivables from cash pooling of €273.9 million (previous year: €194 million).

As at the end of the financial year, Eurex Frankfurt's equity capital totalled €984.251 million (previous year: €897.959 million). Additions of €86.291 million were made to participatory capital, which is recognised as equity capital (level of €971.092 million, previous year: €884.801 million). Eurex Frankfurt's equity ratio is 57.3 percent (previous year: 55.8 percent).

Trade payables fell to €2.068 million (previous year: €2.257 million). Liabilities to affiliated companies climbed to €692.461 million (prior year: €662.117 million) and largely resulted from taking out a loan from Eurex Services GmbH in the amount of €503 million in 2011. Furthermore, liabilities from cash pooling rose to €177.122 million (prior year: €144.3 million).

Liquidity inflows arise on account of the regular payments under the existing operating agreement. A credit line with DBAG in the amount of €50 million is also in place for refinancing purposes.

The financial situation of the Company is assessed as being in order.

Risk report

Eurex Frankfurt is integrated into the Group-wide risk management system of Deutsche Börse AG (DBAG). Deutsche Börse Group has established a Group-wide risk management system, which defines functions, processes and responsibilities and is binding on all staff within the Group.

The risk management system ensures that all management committees of Deutsche Börse Group can promptly monitor the risk profile of the Group as a whole or of individual legal entities such as Eurex Frankfurt, as well as specific material risks. The aim is to ensure the timely identification of developments that could threaten the Group's or Eurex Frankfurt's interests and to take appropriate countermeasures.

Eurex Frankfurt takes great care to mitigate risk and ensures that appropriate measures are taken to avoid, reduce and transfer – or intentionally take on – risk. The aim is to make use of suitable safeguards and control measures such as guidelines and procedures, the segregation of functions, the principle of dual control, limit restrictions and also business continuity management to reduce both the frequency and level of potential losses from the corresponding risk cases for Eurex Frankfurt. In addition, potential operational losses are limited further via an insurance portfolio.

The Executive Board of Eurex Frankfurt is responsible for the Company's risk management system. The decentralised departments identify risks and report these promptly to Group Risk Management, a central function with Group-wide powers. Group Risk Management evaluates all existing and new risks. The execution of risk control measures is the responsibility of the competent decentralised departments.

Eurex Frankfurt uses a standardised approach – value at risk (VaR) – for measuring and reporting all risks. The aim of this concept is to create a comprehensive overview of general risk tolerance and to facilitate the prioritisation of risk measures.

VaR quantifies existing and new risks. It constitutes the upper threshold of the cumulative losses which Eurex Frankfurt can incur if certain independent loss events occur within a specified period and with a defined probability.

Eurex Frankfurt calculates economic capital as its main risk management tool. This is used in addition to other performance indicators to determine the capital needed for business operations so that even extreme and unexpected losses can be covered. Economic capital is calculated using a VaR method for a period of one year and a confidence level of 99.98 percent, taking into account diversification effects. Eurex Frankfurt uses the equity on its balance sheet as risk coverage equity for economic capital.

Independent audits by the Internal Auditing function ensure that the risk control and risk management functions are appropriate. The results of these examinations also feed into the risk management system.

Specific risks

Operational risks

The material risks for Eurex Frankfurt are operational risks. Operational risks comprise potential losses from inadequate or faulty systems and internal processes, from human or technical failure and from damage to tangible assets as well as from legal and business practice risks.

For Eurex Frankfurt, specific operational risks comprise a threat to the availability of the system infrastructure deployed and in processing errors in manual processing operations. This availability risk is specifically addressed by means of comprehensive activities in the field of business continuity management (BCM). The BCM system encompasses all of the processes which ensure that business continues as normal if a crisis occurs and therefore substantially reduces availability risk. It covers arrangements for all key resources (systems, premises, employees, suppliers/service providers), including the redundant design of all critical IT systems and the technical infrastructure, as well as backup workstations in each of the main operational centres for employees in critical functions. These precautionary BCM measures are regularly reviewed.

However, if trading is interrupted or other operational errors do occur, this may result in loss of income, claims for damages and additional costs for rectifying the problem. If outages last for a long period of time or if they recur frequently, there may also be reputational losses which, in the final consequence, might also result in participants taking their custom elsewhere and in volumes declining (business risk).

Business practice risks also include personnel risks. The dedication and performance of our employees are the key foundations for Deutsche Börse Group's success. In this regard, the Group is exposed to the risk that important members of staff in key positions leave the company or that positions cannot be adequately filled.

No notable operational losses were incurred in the year under review and there are no indications of events in 2012 which would point towards significant operational losses in the future.

Business risk

Business risk constitutes a further material risk for Deutsche Börse Group. It reflects the sensitivity to macroeconomic developments and the susceptibility to event risks such as regulatory adjustments or changes in the competitive environment. This risk is expressed in relation to EBIT. Business risk can impact sales revenue and cost trends, for example causing a decline in actual sales revenue compared to target figures, or a rise in costs. In addition, external factors such as the performance and volatility of – or a lack of investor confidence in – the financial markets may impact financial performance. In particular, in view of the ongoing European sovereign debt crisis and the associated possibility of a further deterioration in the economic environment, a negative trend in Eurex Frankfurt's earnings cannot be ruled out.

Regulatory initiatives represent a material business risk. Firstly, they may have a negative impact on Eurex Frankfurt's competitive position. Secondly, they may affect the business models of its

customers and reduce the demand for Eurex Frankfurt's products and services. With respect to the risk of a changed competitive environment, the possibility that Eurex Frankfurt's financial performance might deteriorate due to intense competition for market share in individual business areas cannot be ruled out. This could in some circumstances lead to the value of equity investments being partially or fully written down following an impairment test.

Scenarios are prepared and quantitatively assessed for Eurex Frankfurt based on the most significant risk events. Eurex Frankfurt monitors these developments very closely with a view to initiating risk-mitigating measures at an early stage.

Financial risk

Eurex Frankfurt is included in Deutsche Börse AG's cash pooling arrangements. Financial investments are only conducted to a limited extent. All in all, the financial risk of Eurex Frankfurt is low.

Summary

In the past financial year further external risk factors have arisen for Eurex Frankfurt's business. However, Eurex Frankfurt identified newly occurring risks at an early stage and took appropriate measures to counter them. Based on these measures, in the opinion of the Executive Board there has been no material change to Eurex Frankfurt's risk profile. The Executive Board of Eurex Frankfurt firmly believes in the effectiveness of its risk management system.

Outlook

Eurex Frankfurt assesses its risk situation on an ongoing basis. Taking the stress test calculations that have been conducted into account, the economic capital arising and the risk management system which it deems to be effective, the Executive Board of Eurex Frankfurt comes to the conclusion that the risk coverage equity is adequate. Furthermore, it cannot identify any risks which jeopardise the Group's ongoing existence.

Further developments in the area of risk management are also planned for 2013. In addition, in 2013 an increased number of risk appraisals of business and regulatory risks that have effects on the Company beyond the period of one year used to calculate economic capital will be undertaken.

Furthermore, Eurex Frankfurt will overhaul its risk bearing capacity concept. Intrarisk diversification effects will no longer be assumed when calculating the required economic capital. Thereby, Eurex Frankfurt will apply the most conservative approach.

Branch offices

Since 14 January 2011, Eurex Frankfurt has had a registered branch office in Singapore to expand on and strengthen its business activities in the Asia/Pacific region. As well as marketing Eurex Frankfurt's products and services, the main duties of the former representative office (since July 2009) mainly involve maintaining existing business relationships, establishing cooperation projects and connecting new exchange participants from the Asia/Pacific, India, Middle East and emerging markets regions.

Report on events after the balance sheet date

On 5 February 2013, Deutsche Börse AG announced – subject to approval by the Supervisory Board – the Executive Board's plans to accelerate the measures to heighten operating efficiency. To this end, Deutsche Börse AG intends to identify and leverage additional potential across the Group with an annual volume of €70 million in HR and material costs. All efficiency improvements should be fully effective for the first time in 2016. The specific effects on the individual companies within Deutsche Börse Group cannot be fully evaluated at present.

Report on expected developments

The report on expected developments describes the anticipated business performance for Eurex Frankfurt in the 2013 and 2014 financial years. It contains statements and information about future events. These forward-looking statements and information are based on the Company's expectations and assumptions at the time of publication of this report on expected developments. These assumptions and expectations are in turn subject to known and unknown risks and uncertainties. Numerous factors have an influence on the Company's success, business strategy and results. Many of these factors are outside the Company's control. Should one of these risks or uncertainties materialise or any of the underlying assumptions prove to be incorrect, the actual performance of the Company may differ positively or negatively from the expectations and assumptions contained in the forward-looking statements and information in this report on expected developments.

At present, various factors are influencing the lower investments by market participants in derivatives. Eurex Frankfurt expects the factors set out below to continue to have a major influence on business development over the next two years.

- The financial crisis that began in 2008 had extremely pronounced consequences for trading institutions' investment behaviour. The internal analysis process in relation to the events at that time led to a critical engagement with high-risk investments and what were apparently

partially ineffective internal mechanisms to prevent losses. As an outcome of this process, Eurex now sees far less risk capital and trading activity on the market on the part of the trading institutions.

- The current uncertainties, particularly those affecting the eurozone as regards the single currency and in relation to the economic viability and credit ratings of its participants, are also leading to lower investments in products that cover the eurozone directly such as Eurex's Euro Stoxx index family. This particularly applies to investors from non-EU countries and their activities in euro products on the euro region exchanges.
- On the whole, the low levels of key rates are leading to low investment in derivatives on government bonds, and the downtrend in credit ratings for the government bonds of various European nations has led to weaker demand for derivative market products on German government bonds, as these could no longer be used as a benchmark for European sovereign bonds in light of the yield spreads that have arisen.
- Political measures in response to the financial crisis have come at the expense of trading volumes. The possible introduction of a financial transaction tax or bans on short-selling have affected trading participants whose business models assigned a high level of liquidity to the order book and which exhibit high-frequency trading.
- Regulatory measures relating to the mandatory disclosure (reporting obligation) and collateralisation of OTC transactions and the revision of the Capital Requirements Directive are creating the need for amendments and additional work on the part of trading participants due to higher capital requirements amid deteriorating risk/return expectations.

In view of the interplay between the global economic trend and geopolitical risks, the Company expects an ongoing need for consolidation on the part of the financial industry and therefore continued uncertainty with regard to forecasting developments in the operating business.

At the same time, Eurex Frankfurt is operating in a highly competitive environment which in the future will be subject to structural changes in general regulatory conditions in both Europe and the US. In Europe, this specifically relates to the measure taken by the European Union, which took effect on 16 August 2012, to introduce a European Market Infrastructure Regulation (EMIR) to regulate the financial market, a revision to the Markets in Financial Instruments Directive (MIFID 2/MIFIR) and amendments to the Capital Requirements Directive (CRD IV). The main regulatory provisions of EMIR with a direct effect on exchanges are as follows: the implementation of greater interoperability between different clearing houses, greater price transparency and the obligation for certain transactions conducted on an over-the-counter basis to be cleared using a central counterparty in order to protect against counterparty risk.

Additional plans for legislation in respect of the tax treatment of securities transactions on a national and EU level as part of the planned introduction of a financial transaction tax may pose risks to Eurex Frankfurt's trading volumes. Following the introduction of a financial transaction tax, Eurex might expect the number of transactions to fall and income to be lower on account of higher trading costs per transaction for participants and the possible transfer of trading activities out of the area in which the tax would apply. However, as the legislation process has not yet been completed and it is still unclear whether the measure will be extended to derivatives trading, the indirect consequences for Eurex Frankfurt cannot be quantified at present. Eurex Frankfurt will continue to contribute to the discussion at all levels.

To sum up, a stable assessment of general economic conditions and therefore also trading activity on the part of Eurex customers as external growth drivers during 2013 and beyond for 2014 is only possible to a limited extent. Against this backdrop and given the connections between the general economic environment and the need for trading participants to use derivative markets to hedge against risks, the general trend in trading volumes and revenues in 2013 is expected to be in line with the previous year's level.

At the same time, Eurex Frankfurt continues to assume that the structural growth drivers in the derivatives business are largely intact. These growth drivers are as follows:

- Due to the great importance of risk management, more and more OTC transactions are being cleared centrally to eliminate counterparty risk.
- Demand for Eurex products from investors and trading houses from non-European regions such as Asia is growing.

Eurex Frankfurt also looks for a generally positive stimulus to operating business activities for the forecast period of 2013 and 2014 thanks to a wide range of measures to enhance the trading system and network, expand the customer base in terms of numbers and geographical reach, expand the number of tradeable products and product classes, increase the appeal of the pricing model and continue the expansion of risk management systems.

We will now go on to address a number of growth prospects in detail below:

- Extension of the global distribution network. Eurex will continue to expand its customer network and the distribution of its products and services, especially in Asia, North and South America and in other emerging market regions. In this regard, the collaboration with Korea Exchange should be emphasised as a model for future product cooperations.
- In 2012, the Eurex product range was expanded again with the addition of over 150 new products. On the product development side, Eurex is planning to maintain the continuous development of the existing portfolio in line with market requirements. Further additions will be made to the product classes of European equity, dividend, index or commodity derivatives via issuance on new underlyings.
- The continuing process of valuing the service and product portfolio also applies to the Eurex pricing structure/ pricing model. That way continuing scrutiny of requirements needing adjustments is to be expected. These measures align (or adapt) fees for large trading volumes and offer rebates for selected products. Changes in the price list of Eurex generally aim to create incentives for larger trading volumes by the client and thus to improve the liquidity of the order book trading as well as to increase market transparency and efficient price determination.
- High-performance technology remains an important competitive factor in a market environment characterised by intense competition. Eurex Frankfurt therefore launched a new trading platform in December 2012. The plan is for the migration of all Eurex products to take place in several stages in which they will be gradually transferred from the current to the new trading system. The new Eurex system was developed entirely in-house and is based on Deutsche Börse Group's proprietary global trading architecture, which is already in use at ISE. The new trading infrastructure is based on an extremely flexible operating

system, an integrated high-performance messaging architecture to ensure minimal latency, a high-speed communications interface and reliable database systems. In future, this will enable a substantial reduction in the time taken to launch new products and functionalities. In addition, the system will incorporate new functionalities for strategy and spread trading. Moreover, exchange participants will have access to new interfaces which will replace or expand on existing interfaces. They are based on the FIX and FAST industry standards, allowing participants to achieve implementation more quickly. Once again, the migration to the new system will enable Eurex to offer its trading participants an industry-leading solution.

- Intense competition in the US-stock option market is going to continue in future and is expected to show an increasing trend. As this is going to have a direct impact on the development of ISEs trading volumes and revenues, ISE took several measures, to obtain competitive advantages and regain market share. Besides incentives for liquidity providers on the market and implementing new attractive order types, there was most notably the introduction of the new electronic trading systems, which was launched in 2011.
- A further strategic initiative pursued by Eurex Frankfurt relates to the expansion of business activities in Eurex Clearing's risk and trade management. To enable Eurex Clearing to continue to expand its market position as one of the leading clearing houses, effective risk management will be further extended and enhanced in future, as was recently the case with the 2012 launch of Client Asset Protection and the Individual Clearing Model as foundations for the provision of services, functionalities and product coverage for OTC trading. All the new risk management models are part of a comprehensive expansion of Eurex Clearing's services in anticipation of regulatory reforms planned at EU level. These reforms aim to have central counterparties play a greater role in the clearing and risk management of exchange-based and OTC derivatives trading.

In addition, Eurex Frankfurt will continue to evaluate cooperation or acquisition options for generating both organic and non-organic growth to complement and build on the current business model.

In summary, against the backdrop of the general political and regulatory conditions and requirements referred to above, Eurex Frankfurt expects both caution and a need for further changes on the part of customers in 2013. If stabilising signals in Europe and changes in key rates fail to materialise on the back of measures by the leading central banks, Eurex expects trading volumes to be in line with those of the 2012 financial year despite positive impetus from organic growth initiatives. Eurex Frankfurt also expects the trend in pre-transfer sales revenues in the 2013 financial year to be at the prior year level. The planned pre-transfer operating expenses for 2013 are also expected to be in line with the operating expenses for 2012. Eurex Frankfurt therefore expects earnings to be at least stable in 2013 at the level of 2012, before investments, depreciation and amortisation, loss absorptions and/or income from profit transfer agreements. With regard to subsequent business performance beyond 2013, ongoing developments in general regulatory conditions and the continued stabilisation of the macroeconomic environment will be crucial. On the whole, despite possible risks to the stability of the financial markets and the expectation that competition will intensify further, the Company anticipates a structurally positive trend for the global derivatives market to which Eurex Frankfurt will actively contribute via its own business model.

On the basis of the management agreement, Eurex Clearing also expects earnings to be stable in 2014.

Closing declaration in accordance with section 312 of the German Companies Act (AktG)

Pursuant to section 312 AktG, a report has been prepared on relationships with affiliated companies. Our report closes with the following declaration:

"In connection with each legal transaction with affiliated companies, our Company received an appropriate consideration in accordance with the circumstances that were known at the time at which the legal transactions were carried out. Other measures were neither taken nor omitted."

Intercompany agreements

As part of the profit transfer agreement concluded between Eurex Frankfurt and Eurex Clearing AG, the latter is obliged to transfer its net income for the year to Eurex Frankfurt, minus any losses carried forward from the previous year and the amount required by section 300 of the AktG to be added to the reserves. At the same time, Eurex Frankfurt is required to make up any losses incurred at Eurex Clearing AG during the year through loss absorption, provided such losses have not already been offset through transfers from other retained earnings added during the term of the contract.

In addition, profit transfer agreements have been concluded between Eurex Frankfurt and Eurex Repo GmbH and with Eurex Services GmbH. Both companies are obliged to transfer their net profit to Eurex Frankfurt. At the same time, during the term of the contract, Eurex Frankfurt is obliged to compensate any annual deficit incurred by Eurex Repo GmbH and Eurex Services GmbH through loss absorption.

Group structure

Eurex Frankfurt is a wholly-owned subsidiary of Eurex Zürich AG. It is incorporated into the consolidated accounts of DBAG, which may be viewed at the business premises of our Company. These consolidated financial statements exempt the Company from the requirement to produce accounts in accordance with the HGB. The consolidated financial statements of DBAG are prepared on the basis of the relevant IFRS standards and published in the electronic German Federal Gazette.

In accordance with section 20 (4) of the AktG, DBAG has notified us that it holds a majority interest in our Company.

Enclosure 3/1

Notes to the financial statements

1 Purpose of the Company

The purpose of the Company is to maintain a cross-border operating organisation for an electronic futures market for financial products (e.g. options and futures).

It may provide services in the area of stock-exchange trading, in particular in software development and the processing and provision of financial data.

The Company may establish branches and subsidiaries in Switzerland and abroad and may acquire holdings in, purchase or establish other companies in Switzerland and abroad. The Company may purchase, rent and sell real estate and may acquire and exploit property rights and know-how.

The Company may conduct all commercial, financial and other transactions which are related to the purpose of the Company.

2 Share capital

The share capital, consisting of 10,000 restricted registered shares of CHF 1,000 each, is fully paid in and amounts to CHF 10 million. In addition, the Company has issued 5,000 participation certificates with no par value which, in the event that a dividend is declared, are entitled to 1/3 of the amount of the dividend for registered shares.

The share capital of Eurex Zürich AG is held in equal shares of 50% each by Eurex Global Derivatives AG, Zurich, and Deutsche Börse AG, Frankfurt.

The agreement dated 7 June 2011, according to which SIX Swiss Exchange sold its Swiss derivatives business, including its shares in Eurex Zürich AG, to Deutsche Börse AG was completed on 30 April 2012. Since that date, Eurex Zürich AG has been a wholly owned subsidiary of Deutsche Börse AG, with 50% of the shares held indirectly through Eurex Global Derivatives AG, Zurich.

3 CO 663b para. 12 Risk Assessment

Eurex Zürich AG is an integral part of the Eurex Group. The risk assessment was conducted within the framework of the Group-wide risk management processes established by Eurex Clearing AG. Eurex Zürich AG also relies on the risk management processes of Deutsche Börse AG. For that reason, a separate risk assessment on the part of the Board of Directors of Eurex Zürich AG was waived.

Accounting and valuation principles

As a general rule, the historical cost principle has been adopted for the financial statements. This is based on the principle of individual valuation of assets and liabilities. Notes on any deviations from this principle are provided on the relevant balance sheet items.

Enclosure 3/2

Notes to the financial statements

Cash

Cash includes cash in hand, balances with banks and in postal accounts as well as demand and time deposits payable within no more than 90 days. These are valued at their nominal values.

Property, plant and equipment

Property, plant and equipment valued at or above CHF 1,000.00 is depreciated over its standard useful life. Property, plant and equipment valued at up to CHF 1,000.00 is depreciated in full in the year of acquisition.

Participations

Participations are stated at their acquisition price less accumulated amortisation.

Receivables

Receivables are stated at their nominal value.

Provisions

Provisions are formed as required for operational reasons.

Taxes

Tax provisions are reserved on a full accrual method basis.

European Energy Exchange AG, Frankfurt	148,375	148,375
Total	298,293	298,293

Eurex Frankfurt AG, Frankfurt is a wholly owned subsidiary of Eurex Zürich AG. Its share capital is EUR 6 million and is fully paid in.

As of 30 September 2002, European Energy Exchange AG merged with the European Energy Exchange in Leipzig. Its share capital is EUR 50.05 million.

On 18 May 2009, Eurex Zürich AG acquired 199.162 shares in European Energy Exchange AG for the price of EUR 1,314,469.20.

On 23 December 2010, Eurex Zürich AG signed an agreement to take over the EEX shares held by Landesbank Baden-Württemberg (LBBW). The agreement provides for the acquisition of an EEX shareholding of up to 22.96% since LBBW is required to offer its shares to other EEX shareholders as well on a pro-rata basis.

On 31 March 2011, a transaction was completed whereby Eurex Zürich AG purchased an additional 20.91% of the shares for EUR 64,928,430.50, thereby increasing its participation in EEX accordingly.

Eurex Zürich AG acquired 30,402 EEX shares as of 31 December 2012 at a price of CHF 284,462.77.

Eurex Zürich AG holds 56.14% of the share capital as at 31 December 2012.

Independent Auditors' Report

The Member
International Securities Exchange, LLC:

We have audited the accompanying financial statements of International Securities Exchange, LLC (the Company), which comprise the statement of financial condition as of December 31, 2012, and the related statements of income, changes in member's equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of International Securities Exchange, LLC as of December 31, 2012, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(1) Organization and Description of Business

International Securities Exchange, LLC (ISE or the Company) is a wholly owned subsidiary of International Securities Exchange Holdings, Inc. (ISE Holdings or the Parent). ISE Holdings is the sole member of the Company and its liability is limited to the balance of its capital account.

The Company is a fully electronic exchange for equity and index options and related services utilizing a market structure which combines the efficiencies of electronic trading with auction market principles. ISE was founded in September 1997. In February 2000, it received regulatory approval to become a national securities exchange and, in May 2000, formally commenced trading. ISE is regulated by the U.S. Securities and Exchange Commission (SEC).

Effective December 20, 2007, Eurex Frankfurt AG (Eurex) completed a merger whereby it purchased all the outstanding common stock of ISE Holdings, Inc. (the Parent). Eurex is a wholly by Deutsche Börse AG (Deutsche Börse). The Company continues to be regulated by the SEC as a registered national securities exchange and operates as a subsidiary of Eurex.

(2) Basis of Presentation and Significant Accounting Policies

(a) Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and in the opinion of management reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of financial condition, income, and cash flows for the period presented.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Revenue Recognition

Transaction fees are earned based on contracts executed on the Company's exchange and are recorded as transactions occur on a trade-date basis. Revenues from transactions are recorded on a gross basis in transaction revenues with related rebates recorded as cost of revenues.

Market data revenues are earned from the sale of the Company's trade and quote information through the Options Price Reporting Authority, LLC (OPRA) as well as from real time and historical data feeds sold directly to members. The Company earns a portion of OPRA's net income based on its pro rata share of industry trade volume. OPRA revenue is recorded as transactions occur on a trade-date basis and other market data revenues are charged and recognized as earned.

Member fees are comprised of revenues earned for connectivity and access to the Company's exchange; revenue from the sale of Competitive Market Maker (CMM) trading rights; fees for use of the Company's communication network, equipment, and trading software; and regulatory and

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

administrative fees. Connectivity, access and communications fees, and equipment and trading software fees are charged and recognized on a monthly basis based upon a specific fixed fee for each service. Revenue from the sale of CMM trading rights is deferred and recognized on a straight-line basis over 14 years. Administrative fees are charged and recognized as earned. Regulatory fees are predominately charged on a trade-date basis.

Management and service fees represent fees for services provided to affiliates of ISE and Eurex. Among the services provided to these affiliates are those relating to technology, regulatory supervision, and general administration. These fees are accrued monthly.

Transaction rebates are paid on certain option trades to incentivize market participants to send options order flow to the exchange. These transaction rebates are recorded on a trade-date basis.

Activity remittance fees are paid to the SEC pursuant to Section 31 of the Exchange Act. These fees are designed to recover costs to the government for the supervision and regulation of securities markets and securities professionals. This expense is wholly offset by activity assessment fees charged by the Company to exchange members which is included in transaction fees. These fees are recorded on a settlement-date basis.

License fees are paid to providers of index options products based upon the number of contracts executed on our exchange. This expense is offset by surcharges charged by the Company to exchange members for trading these products, which is included in transaction fees. These fees are recorded on a trade-date basis.

(d) *Noncurrent Deferred Revenue*

The Company sold CMM trading rights pursuant to purchase agreements which grant perpetual trading rights on the Company's exchange. The estimated useful life was determined based upon an analysis of certain factors driving the securities industry that could have an effect on the Company's operations in providing services to its exchange members. Such factors included significant historical operating, regulatory and technology changes which have affected market participants and trading venues. Based upon the analysis, the Company currently recognizes revenue from the sale on a straight-line basis over the estimated useful life of 14 years; however, this period may be subject to change in the future.

On a periodic basis, or if certain circumstances come to its attention, the Company reviews the original factors or assumptions used in determining the estimated service period to ascertain the effect, if any, current events may have on those factors and assumptions. If the current facts warrant a change in the estimated service period, the Company will adjust the remaining revenue to be recognized in accordance with the new estimated service life using the prospective method. The service period may increase or decrease from the current estimate of 14 years based upon the facts and circumstances.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(e) Cash and Cash Equivalents

The Company considers investments in money market funds and all highly liquid investments with an original maturity of 90 days or less at the time of purchase as cash equivalents. Cash equivalents are carried at cost, which approximates fair value.

(f) Accounts Receivable, Net

Accounts receivable are stated at face value, net of allowance for any doubtful account. An estimate for doubtful accounts, based on the Company's bad debt experience and specific circumstances of the debtor, is made when collection of the full amount is no longer probable.

(g) Income Taxes

The Company is a single-member limited liability company. It has not elected to be treated as a corporation for tax purposes. Its tax status is therefore considered to be that of a disregarded entity, and as such, the results of the Company's operations are included in ISE Holdings' U.S. federal, state, and local income tax returns.

The Company records income taxes in accordance with ASC 740, *Income Taxes*, on a separate-company basis, pursuant to which it is required to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and tax bases of its assets and liabilities. A valuation allowance is established for any portion of its deferred tax asset for which a tax benefit is not expected to be realized. The income tax receivable balance represents amounts due from ISE Holdings.

The Company applies the provisions of ASC 740 which requires management to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets this recognition threshold, the position is measured to determine the amount of benefit to be recognized in the financial statements. The Company recognizes interest and penalties, if applicable, related to uncertain tax positions as a component of provision for income taxes in the accompanying statement of income.

(h) Payment for Order Flow

The Company imposes fees upon market makers to fund payments to order flow providers under a program administered by the Company. These fees are distributed to certain order flow providers as an economic inducement to route their customer orders to the Company's exchange. The market makers have full discretion regarding the payment. Pursuant to ASC 605, *Revenue Recognition*, the Company reflects the assessments and payments on a net basis, with no impact on revenues or expenses. When fees are assessed, the Company records an asset (accounts receivable) with a corresponding liability (payment for order flow payable).

Payment for order flow cash is reflected in cash and cash equivalents on the Company's statement of financial condition. These funds are not legally restricted and can be used for general corporate purposes.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(i) Stock-Based Compensation

The Company accounts for its stock-based compensation in accordance with ASC 718, *Compensation – Stock Compensation*. The Company has both liability and equity-classified plans: the Stock Bonus Plan (SBP) and the ISE Group Share Plan (GSP).

SBP is a liability-classified plan for Company's senior executives. Compensation expense is recognized over the relevant vesting period based on the fair value of restricted stock awards with a corresponding increase in liabilities. Compensation expense and liabilities are remeasured based on the fair value of Deutsche Börse shares on each balance sheet date until the award is settled. Upon vesting, Deutsche Börse has an option whether to settle the award in shares or in cash with a corresponding decrease in liability. Historically, these awards have been settled in cash.

GSP is an equity-classified plan for Company's nonexecutive employees. Compensation expense is recognized on a straight-line basis over the relevant vesting period based on the grant-date fair value of Deutsche Börse shares with a corresponding increase in member's equity. Upon vesting, the Company settles the award in shares.

(j) Long-Term Deferred Compensation Plan

Under terms of the Long-Term Deferred Compensation Plan, eligible employees are awarded a deferred incentive bonus in which the Company will invest its own funds, on behalf of the employee, in amounts equal to the investment choices as designated by the plan participant. The investments held through an irrevocable grantor trust were in several mutual funds. Investments, which are classified as Securities Owned on the statement of financial condition, are carried at fair value with realized and unrealized gains or losses reported in other interest and investment income on the statement of income. The deferred compensation obligations are classified as liabilities and adjusted with a corresponding charge or credit to compensation and benefits expense to reflect the fair value of the amount owed to the employees.

(k) Fixed Assets

Fixed assets consist of computer hardware, furniture and fixtures, equipment, and leasehold improvements. Capitalized fixed assets are depreciated utilizing the straight-line method over the estimated useful lives as follows:

Hardware and equipment	3 to 7 years
Furniture and fixtures	7 years

Leasehold improvements are amortized on a straight-line basis over the lesser of the lease term or its estimated useful life.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(l) Intangible Assets

Intangible assets consist of customized and standard software, related licenses, and capitalized software development costs. Intangible assets are amortized using the straight-line method over the estimated useful lives as follows:

Trading related software licenses	5 to 7 years
Other software licenses	3 to 5 years

Costs for internal software are assessed to determine whether they should be capitalized or expensed in accordance with ASC 350, *Intangibles – Goodwill and Other*. Software development costs incurred during the preliminary project stage are expensed as incurred, while costs incurred during the application development stage are capitalized. Amortization is computed using the straight-line method over the software's estimated useful life, generally three to seven years, depending on the type of software. Amortization of these capitalized costs begins only when the software becomes ready for its intended use. Capitalization of costs ceases when the post implementation/operation stage of the software development process is reached.

(m) Marketing and Business Development

Advertising costs, including media advertising and production costs, are expensed when incurred.

(n) Impairment of Fixed Assets and Intangible Assets

On a periodic basis, the Company performs a review for the impairment of fixed and intangible assets when events or changes in circumstances indicate that the estimated undiscounted future cash flows expected to be generated by the assets are less than their carrying amounts or when other events occur which may indicate that the carrying amount of an asset may not be recoverable.

(o) Credit Risk

Pursuant to agreements with its members, the Company has the authority to deduct outstanding noncontested receivables from members clearing deposit accounts at the Options Clearing Corporation. Based upon these facts, the Company believes its credit risk is not material to its financial condition.

(3) Cash and Cash Equivalents

Cash and cash equivalents are comprised of the following:

Cash at banks	\$	379
Money market accounts		39,043
Money market funds reserved for payment for order flow program		<u>2</u>
Total	\$	<u><u>39,424</u></u>

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(4) Accounts Receivable

Accounts receivable consists of the following:

Trading related fees	\$	21,955
Payment for order flow program		1,340
Allowance for doubtful accounts		(34)
Total	\$	<u>23,261</u>

For the year ended December 31, 2012, the write-off for doubtful accounts was \$4. The recorded investment in trade receivables past due 90 days or more is \$302 as of December 31, 2012.

(5) Fair Value of Financial Instruments

The Company applies ASC 820, *Fair Value Measurement*, which provides guidance in using fair value to measure assets and liabilities and enhances disclosures about fair value measurements.

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities

Level 2 – Quoted prices for instruments that are identical or similar in markets that are not active and model-derived valuations for which all significant inputs are observable, either directly or indirectly in active markets

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable

The hierarchy requires the use of observable market data when available. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. As of December 31, 2012, all of the Company's securities owned consist of exchange traded funds and money market mutual funds and are classified as Level 1 within the fair value hierarchy.

(6) Noncurrent Deferred Revenue

The Company has sold 50 CMM trading rights as of December 31, 2012. No trading rights were sold during the year ended December 31, 2012. The CMM trading rights were each sold pursuant to purchase agreements for \$1.5 million each.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

Changes in deferred revenue are as follows:

Beginning balance	\$	25,380
Additions during the period		—
Revenue recognized during the period		<u>(5,114)</u>
Ending balance	\$	<u><u>20,266</u></u>

(7) Fixed Assets

Fixed assets consist of the following:

Leasehold improvements	\$	24,859
Furniture and fixtures		2,132
Hardware and equipment		19,612
Assets under construction		—
Accumulated depreciation		<u>(24,237)</u>
Total	\$	<u><u>22,366</u></u>

The Company recorded \$7,333 in depreciation expense for the year ended December 31, 2012.

(8) Intangible Assets

Intangible assets consist of the following:

Trading related software	\$	25,603
Other intangible assets		519
In-process intangible assets		683
Trading related software – accumulated amortization		<u>(12,064)</u>
Total	\$	<u><u>14,741</u></u>

The Company recorded amortization of \$3,489 for the year ended December 31, 2012.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

The following table presents the estimated amortization expense for each of the five succeeding fiscal years:

Year ending December 31:	<u>Amortization expense</u>
2013	\$ 4,480
2014	4,409
2015	4,364
2016	1,212
2017	106

In-process intangible assets begin amortization when ready for the asset's intended use. The Company capitalized \$5,515 for software licenses and software developed for internal use during the year ended December 31, 2012.

(9) Member Fees and Other

Member fees and other are comprised of the following:

Connectivity, access fees and other fees	\$ 18,507
Communication, equipment and software fees	4,084
Regulatory and administrative fees	15,021
Other	810
Revenue from sale of CMM trading rights	<u>5,114</u>
Total	<u>\$ 43,536</u>

(10) Stock-Based Plans

During the year, the Company participated in two stock-based plans offered by Deutsche Börse: the Stock Bonus Plan (SBP) for senior executives and the ISE Group Share Plan (GSP) for other employees.

(a) Stock Bonus Plan

In order to participate in the SBP, a participant must have earned a SBP award. The number of SBP shares granted is determined by the amount of the individual performance-based SBP award, divided by the grant price (SBP shares awarded). The SBP awards are not delivered at the time the award is determined. Rather, the SBP awards are subject to a two-year vesting period. Within this period, participants cannot assert shareholder rights (in particular, the right to receive dividends and attend the Annual General Meeting). The participants' claims resulting from the SBP awards are calculated on the first trading day following the last day of the vesting period. The current market price on that day (closing auction price of Deutsche Börse shares in electronic trading on the Frankfurt Stock Exchange) is multiplied by the number of SBP shares awarded. Deutsche Börse has the option to settle a participant's claim in cash or shares. As a result of the decision by Deutsche Börse to settle

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

prior claims in cash, the compensation cost accrual for all SBP awards are classified as liabilities. The liability is measured as the number of SBP shares awarded multiplied by the market share price at the balance sheet date and is recognized proportionately over the vesting period. No shares were awarded during the year ended December 31, 2012.

Information related to SBP grants is set forth below (dollars and shares in whole amounts):

<u>Date of grant</u>	<u>Price at grant date</u>	<u>Granted</u>	<u>Adjusted/ forfeited</u>	<u>Unvested December 31, 2010</u>	<u>Granted</u>	<u>Adjusted/ forfeited</u>	<u>Unvested December 31, 2011</u>	<u>Granted</u>	<u>Vested</u>	<u>Adjusted/ forfeited</u>	<u>Unvested December 31 2012</u>
February 11, 2010	\$ 77.75	70,558	(1,286)	69,072	—	(11,424)	57,648	—	(57,648)	—	—
February 11, 2011	68.03	—	—	—	38,995	(9,086)	29,909	—	—	(3,547)	26,362

Compensation expense related to the SBP plan was \$1,091 for the year ended December 31, 2012. As of December 31, 2012, \$67 of unrecognized compensation costs related to nonvested SBP grants remain to be amortized in 2013.

(b) ISE Group Share Plan

Under the GSP, eligible employees have the opportunity to acquire a number of shares in Deutsche Börse based on their earned award plus an additional personal contribution. The purchase price for the shares, which is reduced by 90%, is paid from the granted GSP award and an additional contribution by the employee. Neither the GSP award nor the number of GSP shares is delivered at the time the award is determined, but instead are subject to a two-year vesting period beginning at their grant date. Within this period, beneficiaries cannot assert shareholder rights (in particular, the right to receive dividends and attend the Annual General Meeting).

The GSP shares are measured at the fair value on the grant date and recognized in the income statement over the one or two-year vesting period with a corresponding increase in member's equity.

Information related to GSP grants is set forth below (dollars and shares in whole amounts):

<u>Date of grant</u>	<u>Price at grant date</u>	<u>Granted</u>	<u>Adjusted/ forfeited</u>	<u>Unvested December 31, 2010</u>	<u>Adjusted/ forfeited</u>	<u>Unvested December 31, 2011</u>	<u>Vested</u>	<u>Unvested December 31, 2012</u>
February 11, 2010	\$ 63.52	81,765	(7,664)	74,101	(7,042)	67,059	(67,059)	—

Compensation expense related to the GSP plan was \$160 for the year ended December 31, 2012. As of December 31, 2012, \$0 of unrecognized compensation costs related to nonvested GSP grants remain to be amortized in 2013. There were no shares granted during the year ended December 31, 2011 or December 31, 2012.

(11) Employee Benefit Plans

Employees are eligible to participate in the Company's defined contribution 401(k) plan upon meeting certain eligibility requirements. Funding is provided by voluntary contributions from the employees who can contribute up to 20% of their annual compensation to the 401(k) plan. The Company makes discretionary contributions based upon its results of operations and each participant's contributions up to

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

prescribed limits. The plan is administered by a third party. The Company's expense relating to this plan was \$1,475 for the year ended December 31, 2012.

Employees are also eligible to participate in a deferred compensation plan established to provide employees with a long-term incentive. Under the terms of the plan, eligible employees are awarded a deferred incentive bonus in which ISE will invest its own funds, on behalf of the employee, in amounts equal to the investment choices by the plan participants into the designated investments options, consisting of several mutual funds. The investment allocations constitute a deemed, not actual, investment for the participating employees. At no time does the participant have beneficial ownership in any investment; rather the allocation is used solely for purposes of adjusting the value of a participant's account based on earnings and losses resulting from the performance of the investment allocation. The investments are held in a trust structured to conform to the model approved by the IRS (an irrevocable grantor's trust) and the assets of the trust are subject to the claims of ISE's general creditors. Investment gains and losses are recorded in other revenue with an offsetting entry to compensation expense. Upon vesting, amounts payable to employee are settled in cash and ISE has no further obligation. Compensation expense related to the deferred compensation plan was \$5,006 for the year ended December 31, 2012. As of December 31, 2012, \$6,351 of unrecognized compensation costs related to unvested deferred compensation plan remains to be amortized in 2013 and 2014.

(12) Income Taxes

In accordance with a tax arrangement, the Company receives an allocation of ISE Holdings current and deferred income tax. The Company's share is calculated as if it were required to file federal, state, and local tax returns. This allocation from ISE Holdings is presented as provision for income taxes in the statement of income and deferred tax assets in the statement of financial condition.

The provision for income taxes consists of the following:

Current:		
Federal	\$	20,367
State		<u>10,717</u>
Total current		<u>31,084</u>
Deferred:		
Federal		(201)
State		<u>(1,773)</u>
Total deferred		<u>(1,974)</u>
Total provision for income taxes	\$	<u><u>29,110</u></u>

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

The temporary differences which have created deferred tax assets and liabilities are detailed below. Management believes that it is more likely than not the tax assets will be realized and therefore has not recognized any valuation allowance.

Deferred tax assets:	
CMM trading rights	\$ 10,772
Compensation-related	7,104
Other	1,028
Deferred tax liabilities:	
Depreciation and amortization	(1,865)
Software development	(4,446)
Other	(102)
Total deferred tax assets, net	\$ 12,491

The following is a reconciliation of the provision for income taxes and the amount computed by applying the U.S. federal statutory rate to income before income taxes.

U.S. federal income tax rate	35.0%
State and local income tax, net of federal income tax benefit	7.2
Other permanent differences	0.3
Other	(0.9)
Effective tax rate	41.6%

The Company assesses its risk associated with uncertain tax positions and records tax benefits for all years subject to examination based on the best information available at the reporting date. For those positions where it is more likely than not that a tax benefit will be sustained, the Company records the largest amount of the tax benefit with a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority. For those positions where it is more likely than not that a tax benefit will not be sustained, no tax benefit is recognized in the financial statements. During the period, the Company decreased the gross amount of unrecognized tax benefits by \$630. The unrecognized tax benefits relate to fixed assets. At this time, the Company does not expect any material change in the unrecognized tax positions over the next twelve months.

A reconciliation of the beginning and ending balance of the unrecognized tax benefit is as follows:

Balance as of December 31, 2011	\$ 630
Release of reserve due to expiration of statute	(630)
Balance as of December 31, 2012	\$ —

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

The Company recognizes interest and penalties related to unrecognized tax positions separate from income tax expense in its statement of income. At December 31, 2012, \$79 of accrued interest expense related to the unrecognized tax positions was reversed.

(13) Capital Distributions and Contributions

Capital distributions from the Company to ISE Holdings during the year ended December 31, 2012 were as follows:

Funding provided to parent for its dividend payment to shareholders	\$ (102,000)
Funding provided to parent for its investment in associates	<u>(3,332)</u>
Total capital distributions	<u>\$ (105,332)</u>

Capital contributions from ISE Holdings to the Company during the year ended December 31, 2012 are as follows:

Return of funding provided to parent for its dividend payment to shareholders	\$ <u>40,873</u>
Total capital contributions	<u>\$ 40,873</u>

(14) Commitments and Contingencies

(a) Litigation

From time to time, the Company is involved in various routine reviews, regulatory audits, and inspections by the SEC as well as legal proceedings arising in the ordinary course of business. While any litigation contains an element of uncertainty, it is the opinion of management, after consultation with counsel, that the outcome of any such proceedings or claims is unlikely to have a material adverse effect on the business, financial condition, or operating results of the Company.

(b) Contractual Obligations

The Company has entered into obligations under operating leases with initial noncancelable terms in excess of one year for data center space, office space and computer equipment. Expenses recorded under these agreements for the year ended December 31, 2012 were \$10,655.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

Commitments for operating leases are recognized as expense on a straight-line basis over the lease term. At December 31, 2012, future minimum payments for commitments are as follows:

	<u>Total</u>
Year ending December 31:	
2013	\$ 12,754
2014	10,208
2015	3,127
2016	2,783
2017	2,383
Thereafter	8,929

(c) Letter of Credit

The Company has collateralized office space leases through a standby letter of credit. As of December 31, 2012, the Company provided a letter of credit totaling \$1,865 collateralized by a certificate of deposit at a financial institution which is included in other assets.

(d) Guarantees

The Company applies the provisions of ASC 460, *Guarantees*, which provides accounting and disclosure requirements for certain guarantees. The Company's trading rules, which its exchange members are bound by, limit the Company's liability for losses suffered while conducting business on the Company's exchange. The Company's exchange trading rules do not extend to the customers of its exchange members. However, the Company may, at its sole discretion, indemnify its exchange members for losses they suffer in very limited circumstances.

INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

December 31, 2012

(15) Related Party Transactions

The Company provides and receives technology and administrative services to/from affiliates of ISE and Eurex. Listed below are transactions with related parties for the year ended December 31, 2012, as well as payable and receivable balances as of December 31, 2012:

<u>Related party</u>	<u>Management and service fees</u>	<u>Expense</u>	<u>Accounts payable</u>	<u>Accounts receivable</u>	<u>Income tax receivable</u>

Total	<u>\$ 3,244</u>	<u>14,581</u>	<u>9,953</u>	<u>4,264</u>	<u>13,213</u>

(16) Business Concentrations

Revenues are derived in the United States and all of the Company's assets are located in the United States. The Company considers significant customers to be those who account for more than 10% of the Company's gross margin. For the year ended December 31, 2012, no exchange member accounted for more than 10% of the Company's gross margin.

(17) Subsequent Events

The Company has performed an evaluation of subsequent events through April 29, 2013. There have been no material subsequent events that occurred during such period that would be required to be recognized in the financial statements as of and for the year ended December 31, 2012.

Independent Auditors' Report

To the Members of Hanweck Associates, LLC:

We have audited the accompanying financial statements of Hanweck Associates, LLC, which comprise the balance sheets as of December 31, 2012 and 2011 and the related statements of operations and members' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditors' Report

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

1. Business Organization

Hanweck Associates, LLC (“Hanweck” or the “Company”) is a Limited Liability Company, formed on November 25, 2003. The Company’s Limited Liability Company Operating Agreement (“LLC Agreement”) was amended and restated on February 2, 2010. The Company has a perpetual existence unless a dissolution event occurs pursuant to its LLC Agreement. Hanweck is an established leader in high-performance financial computing and a premier financial services provider, specializing in risk management solutions for top-tier hedge funds, banks, broker/dealers and other financial institutions.

2. Summary of Significant Accounting Policies

Basis of presentation – The Company’s financial statements are prepared on the accrual basis of accounting, whereas the tax returns are prepared on the cash basis of accounting.

Revenue recognition – The Company has various consulting, data subscription, and license agreements and recognizes income as earned in accordance with the agreements.

Allowance for doubtful accounts – Bad debts are provided for under the allowance method based upon analyses of open accounts and their expected collectability. As of December 31, 2012 and 2011, an allowance for doubtful accounts was not deemed necessary.

Property and equipment – Property and equipment are stated at cost and depreciated on a straight-line basis over their estimated useful lives. Repairs and maintenance are charged to expense as incurred. Property and equipment consists of computer equipment which is depreciated over an estimated life of 3 years and furniture and equipment which is depreciated over an estimated life of 7 years. Leasehold improvements are amortized over 7 years.

Use of estimates in the financial statements – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Sales tax – Sales tax is assessed by a governmental authority on the purchase of goods and services. The Company collects sales tax for New York. Current practice is that sales tax is reported on a net basis in the statement of operations and changes in members’ equity.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

2. Summary of Significant Accounting Policies *(continued)*

Cash and cash equivalents – The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents.

Fair value disclosures – The carrying amounts of cash, accounts receivable, accounts payable and loans payable approximate fair value because of the short-term nature of these accounts.

Income taxes – The Company is a limited liability company treated as a partnership under the applicable provisions of the Internal Revenue Code and local jurisdictions. Therefore, the Company is not subject to income taxes, and any net income or loss as determined for income tax purposes is allocated to the members based on the provisions of the LLC Agreement. The Company is subject to New York City Unincorporated Business Tax (“NYCUBT”). The Company accounts for NYCUBT utilizing the asset and liability approach. Deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. The provision for income taxes generally represents income taxes paid or payable for the current year plus the change in deferred taxes during the year. Deferred taxes result from the differences between the financial and tax bases of the Firm’s assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. However, the Company estimates a loss for income tax purposes; therefore, no provision has been recorded for the years ended December 31, 2012 and 2011, in the accompanying statements of operations and members’ equity.

Uncertain tax positions – The Company adopted the provisions of accounting for uncertain income taxes positions. As a result of the implementation, the Company was not required to recognize any amounts from uncertain tax positions. The Company’s conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based upon ongoing analyses of tax laws, regulations and interpretations thereof, as well as other factors. Generally, federal, state and local authorities may examine the Company’s tax returns for three years from the date of filing; consequently, the respective tax returns for years prior to 2009 are no longer subject to examination by tax authorities.

Reclassifications – Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

3. Property and Equipment

Major classifications of property and equipment and their respective depreciable lives are summarized as follows as of December 31,:

	2012	2011	Useful Life
Computer equipment	\$ 725,657	\$ 553,792	3 years
Furniture and equipment	26,950	26,950	7 years
Leasehold improvements	23,143	23,143	7 years
	<u>775,750</u>	<u>603,885</u>	
Less: accumulated depreciation and amortization	457,256	286,554	
	<u>\$ 318,494</u>	<u>\$ 317,331</u>	

Depreciation and amortization was \$170,702 and \$138,184, respectively, for the years ended December 31, 2012 and 2011.

4. Note Payable

On April 29, 2011, pursuant to a Convertible Note Purchase Agreement, the Company issued a \$25,000 convertible promissory note to Fintech Innovation Lab, Inc. ("Fintech"). The note matures on April 29, 2013, at which time the outstanding principal balance and any unpaid interest, at the stated rate of 5% per annum, become due and payable. As outlined in the original underlying agreement, the note can be converted to an amount of up to 15% of any new equity of the Company.

On April 29, 2013, this note was extended through April 29, 2015; at which time the outstanding principal balance and any accrued and unpaid interest shall become due and payable. However, Fintech no longer has the right to participate in future financing.

5. Commitments and Contingencies

Operating lease – The Company leases office space in New York City to conduct its business. The lease commenced in February 2011, expires on July 31, 2021, and contains rent escalations. Currently, monthly rent is \$14,582. As required by the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification No. 840 ("ASC 840") "Accounting for Leases", the Company amortizes its rent expense on a straight-line basis over the life of the related lease. The rent expense charged to operations for the years ended December 31, 2012 and 2011 was \$198,410 and \$206,332, respectively.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

5. Commitments and Contingencies (continued)

As of December 31, 2012, future minimum rental payments on this lease are as follows for the years ending December 31,:

2013	\$	174,111
2014		183,473
2015		188,060
2016		207,433
2017		213,952
Thereafter		812,049
	\$	<u>1,779,078</u>

In conjunction with the security deposit for the lease agreement, the Company entered into a Standby Letter of Credit Pledge Agreement in the amount of \$56,907 on January 11, 2011.

Litigation – In November 2011, the Company signed a Settlement Agreement and General Release in connection with a dispute between the Company and a former independent contractor for the Company. The independent contractor was engaged to perform services, as outlined in the underlying agreement with the Company, and alleged that commissions were due under this agreement. The settlement was in the amount of \$20,000 and has been paid and is included in contracted services on the accompanying statements of operations and members' equity for the year ended December 31, 2011.

6. Related Party Transactions

Loans payable – The Company had loans in the amount of \$95,000 payable to one of its members. The loans bore interest at a rate of 3.25% per annum, calculated annually not in advance, and there were no set repayment terms. The balance of the loans as of December 31, 2011 was \$98,088, which included accrued unpaid interest of \$3,088. On April 26, 2012, the entire principal balance and accrued interest was paid. Interest expense related to these loans amounted to \$929 for the year ended December 31, 2012 and is included in the accompanying statement of operations and members' equity.

During March 2011, the Company borrowed an additional \$250,000 from this member. Such amount was paid back on April 21, 2011.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

6. Related Party Transactions *(continued)*

Line of credit – In January 2012, the Company obtained a line of credit in the amount of \$250,000 from a member of the Company. The line of credit bore interest at a rate of 5% per annum. During 2012, the Company borrowed \$250,000 under this line of credit, and the entire balance and accrued interest in the amount of \$2,272 were paid on April 20, 2012.

The line of credit was amended on September 26, 2012, increasing the line to \$400,000. The amended line of credit bears interest at a rate of 7% per annum. Interest on the unpaid balance will accrue and is payable when the principal balance is due, which is on June 30, 2013. As of December 31, 2012, the outstanding balance on this line of credit is \$202,985, which includes accrued interest of \$2,985.

ISE - On February 2, 2010, pursuant to a Membership Interest Purchase Agreement (“MIPA”), one of the Company’s indirect customers, International Securities Exchange Holdings, Inc. (“ISE”) purchased a 12.2% ownership interest in Hanweck for \$1,250,000. The underlying agreement outlines specific criteria in which ISE is eligible to purchase additional membership interest in Hanweck. In connection with this transaction, the Company’s operating agreement was amended and restated. On April 8, 2011, ISE purchased an additional 7.7% ownership interest in Hanweck for \$985,000.

In accordance with the terms of the underlying MIPA, on March 29, 2012, ISE purchased an additional 7.7% ownership interest in Hanweck for \$1,000,000, completing its last additional membership interest purchase.

Revenues from ISE for the years ended December 31, 2012 and 2011 were \$661,643 and \$415,217, respectively. In addition, as of December 31, 2012 and 2011, the Company had accounts receivable due from ISE of \$51,919 and \$45,128, respectively. Furthermore, ISE represents one of the customers for both the revenue and accounts receivable concentrations (see Note 7).

During 2012, the Company and ISE entered into a joint product agreement, whereby, the Company and ISE intend to develop certain products. In connection with this agreement, certain revenue and expenses are shared between the Company and ISE, as described in the underlying agreement. At December 31, 2012, \$33,315 is due from ISE in connection with the agreement, and is included in due from related party on the accompanying balance sheets. This amount was repaid on March 8, 2013.

Professional services – An affiliate of a member of the Company provides professional services for the Company. The total amount of such expenses for the years ended December 31, 2012 and 2011 was \$5,589 and \$5,425, respectively, and is included in professional fees on the statements of operations and members’ equity.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

7. Concentration of Credit Risk

The Company maintains cash balances with a financial institution in interest bearing and non-interest bearing accounts. In 2012, non-interest bearing accounts held in the United States were fully insured by the Federal Deposit Insurance Corporation ("FDIC"), while interest bearing accounts were insured up to \$250,000. Beginning January 1, 2013, interest bearing and non-interest bearing accounts are insured by the FDIC up to \$250,000 per financial institution. The Company believes it is not exposed to any significant credit risk for cash and has not experienced any losses in such accounts.

Four and two customers, respectively, accounted for approximately 53% and 36%, respectively, of the Company's revenue for the years ended December 31, 2012 and 2011.

Two and three customers, respectively, accounted for approximately 40% and 77%, respectively, of the Company's accounts receivable balances as of December 31, 2012 and 2011.

Consulting and licensing agreements – The Company has various consulting and licensing agreements with different customers. These agreements provide for monthly, annual or one-time fees. The Company strictly adheres to these agreements and provides the services as agreed to.

8. Defined Contribution Plan

The Company offers a non-contributory deferred compensation plan under section 401(k) of the Internal Revenue Code through which employee salary deferral contributions can be made and is open to all full time employees. Presently, the Company does not provide any matching contributions to participants. The Company has not incurred any expenses associated with this plan for the years ended December 31, 2012 and 2011.

HANWECK ASSOCIATES, LLC

Notes to Financial Statements

December 31, 2012 and 2011

9. Income Taxes

Deferred tax assets and liabilities arising from New York City unincorporated business taxes are as follows at December 31,:

	<u>2012</u>	<u>2011</u>
Deferred tax assets (liabilities):		
Accounts receivable	\$ (10,000)	\$ (12,000)
Net operating loss carryforwards	80,000	61,000
Accounts payable	18,000	20,000
Property, plant and equipment	(8,000)	(11,000)
Valuation allowance	(80,000)	(58,000)
Net deferred tax asset (liability)	<u>\$ -</u>	<u>\$ -</u>

The deferred tax assets and liabilities result from: (1) accounts receivable that are not recognized for tax purposes until the cash is received, (2) available net operating loss carryforwards for unincorporated business tax, (3) accounts payable that is not deducted for tax purposes until the amounts are paid, and (4) the use of accelerated methods of depreciation of property and equipment.

At December 31, 2012 and 2011, the Company had approximately \$1,995,000 and \$1,561,000, respectively of net operating loss carryforwards available to offset future taxable income, expiring through 2032 and 2031. In assessing the reliability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income. Based on the Company's projected operating income, management believes it is not likely that the Company will realize some of the benefits of this deferred tax asset and, accordingly, valuation allowances of approximately \$80,000 and \$58,000 have been recorded against the net deferred tax asset as of December 31, 2012 and 2011, respectively.

10. Subsequent Events

Management has evaluated events and transactions occurring after the date of the balance sheet and through the date of the independent auditors' report to determine whether any of these events or transactions was required to be recognized or disclosed in the financial statements. The date of the independent auditors' report is the date that the financial statements were available to be issued.

Exhibit I

Exhibit Request:

For the latest fiscal year of the applicant, audited financial statements which are prepared in accordance with, or in the case of a foreign applicant, reconciled with, United States generally accepted accounting principles, and are covered by a report prepared by an independent public accountant. If an applicant has no consolidated subsidiaries, it shall file audited financial statements under Exhibit I alone and need not file a separate unaudited financial statement for the applicant under Exhibit D.

Response:

Audited financial statements are submitted in response to Exhibit I. The Exchange does not maintain audited financials except for those of its holding company, Direct Edge Holdings LLC, and Direct Edge ECN LLC d/b/a DE Route, the Exchange's routing broker/dealer. Therefore, in response to Exhibit I, the Exchange attaches the consolidated audited financial statements of Direct Edge Holdings LLC (consolidated) and DE Route. In addition, the Exchange has included the unaudited financial statements of the Direct Edge Holdings LLC subsidiaries, Direct Edge, Inc., EDGA Exchange, Inc. and EDGX Exchange, Inc..

Independent Auditor's Report

To the Members of
Direct Edge Holdings LLC

We have audited the accompanying consolidated financial statements of Direct Edge Holdings LLC, which comprise the consolidated statement of financial condition as of December 31, 2012, and the related consolidated statement of operations, consolidated changes in members' equity and cash flows for the year then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Direct Edge Holdings LLC at December 31, 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

1. Organization and Description of the Business

Direct Edge Holdings LLC, (the "Company"), a Delaware limited liability company, is the parent company of two wholly owned operating subsidiaries, Direct Edge ECN, LLC, d/b/a DE Route ("DER") and Direct Edge Inc ("DEI"). The Company has no business operations beyond its status as a holding company.

DEI is the parent company of two wholly owned subsidiaries, EDGA Exchange Inc ("EDGA") and EDGX Exchange Inc ("EDGX"), collectively the "Exchanges". EDGA and EDGX independently operate as national securities exchanges. DEI's operations are limited to facilitating connectivity and member services to both EDGA and EDGX.

DER operates as a routing broker-dealer for the Exchanges, by sending orders to other market centers for execution in accordance with the Exchanges' member order instructions and requirements. DER is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"), National Stock Exchange, Chicago Stock Exchange, CBOE Stock Exchange, Nasdaq Stock Market, New York Stock Exchange, EDGA and EDGX.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents represent short-term investments with an original maturity of less than 90 days and cash. The carrying amount of such cash equivalents approximates their fair value due to the short-term nature of these instruments. As of December 31, 2012 the balance principally consist of short term investments and cash held of \$70.7 million.

Broker Dealer and Exchange Activities

Commissions and fees earned and related expenses, including execution and clearance fees and rebates are recorded on a trade date basis. Fees include commissions and fees earned and trade expenses incurred by DER and the Exchanges. The Company pays Section 31 fees to the Securities and Exchange Commission for supervision and regulation of securities markets. This regulatory sales fee is in turn charged to the members of the Exchanges. Any amount receivable at December 31, 2012 is recorded as activity remittance fee receivable.

Market Data Revenue

As members of the Consolidated Tape Association and the Unlisted Trading Privileges plan, the Company earns market data revenue for displaying its quotes and reporting its trades. Revenue is based on the Company's quote and trade reporting activity. Revenue is recorded for the period transaction data is provided on an accrual basis.

Estimated Fair Value of Financial Instruments

Management estimates that the fair value of financial instruments recognized on the consolidated Statement of Financial Condition (including receivables, payables and accrued expenses)

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

approximates their carrying value; as such financial instruments are short-term in nature, bear interest at current market rates or are subject to frequent repricing.

Depreciation and Amortization

Furniture and fixtures, computer hardware, software, equipment and intangible assets are being depreciated on a straight-line basis over their estimated useful lives. Leasehold improvements are amortized using the straight-line method over the term of the lease or the estimated useful lives of the improvements. In accordance with the provisions of subtopic 350 of the FASB Accounting Standards Codification for Intangibles-Goodwill and other ("ASC 350"), the Company capitalizes certain costs associated with the development of internal use software at the point at which the conceptual formulation, design and testing of possible software project alternatives have been completed. The Company capitalizes employee compensation and related benefits incurred from the commencement of the preliminary software project stage. Once the product is ready for its intended use, such costs are amortized on a straight-line basis over three years. The Company reviews the amounts capitalized for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable.

Goodwill and Intangible Assets

The Company applies the provisions of ASC 350, which requires that goodwill and intangible assets with an indefinite useful life no longer be amortized, but instead, be tested for impairment annually or when an event occurs or circumstances change that signify the existence of impairment.

Income Taxes

The Company is a Limited Liability Company, and as such, does not file consolidated federal income tax returns. The Company pays state income taxes in select states where business activities require such payments.

DEI is established as a corporation and files a consolidated federal income tax return. For state and local income tax returns, DEI follows state guidelines, filing either a consolidated return, or filing separate returns for DEI and each of its subsidiaries.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the DEI consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are established when necessary to reduce deferred tax assets to an amount that, in the opinion of management, is more likely than not realizable.

The Company has adopted guidance on accounting for uncertainty in income taxes. This guidance describes how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements to determine whether the tax positions meet the "more-likely-than-not" criteria to be sustained by the applicable tax authority. Tax benefits related to positions that do not meet the "more-likely-than-not" threshold would not be recognized in the current year. The Company policy is to accrue interest and penalties associated with unrecognizable tax benefits in income tax expense in the Statement of Operations, and the corresponding liability in income taxes payable or income taxes receivable, net in the Statement of Financial Condition.

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

Stock-Based Compensation

Employees of the Company participate in a stock option plan (the "Stock Plan"). The purpose of the Stock Plan is to provide long-term incentive compensation, in the form of the Company's stock-related awards, to employees.

Stock-based compensation is measured based on the grant date fair value of the awards. These costs are amortized over a period of 5 years.

Certain employees of the Company also participate in a phantom stock unit plan ("PSUP"). The PSUP was created to provide a long term incentive to employees who started at an early stage of the Company. No grants have been made under this plan since June, 2010. Terms of the PSUP are such that payment for units granted occurs only upon a change in control, as defined by the plan. Given the contingent nature of the PSUP, expense related to the settlement of units will be recorded only upon a change in control.

In 2011 and 2012, subsequent and related to two extraordinary distribution to members, the Company established Restricted Cash Awards for PSUP unit holders under the terms and conditions of the Restricted Cash Award Agreements. Such awards established deferred cash payment to be paid to each PSUP unit holder pursuant to the terms and conditions of the Restricted Cash Award Agreements.

3. Receivables from Brokers, Dealers and Clearing Organizations

Receivable from brokers, dealers and clearing organizations primarily represents net commissions of \$20.7 million, market data receivables of \$11.4 million, regulatory sales fee receivable of \$12.3 million, and connectivity and member fees receivable of \$2.3 million.

4. Goodwill and Intangible Assets

At December 31, 2012, the Company had goodwill of \$34.8 million. Goodwill of \$11.0 million resulted from the purchase of DER by its initial investor and \$23.8 million resulted from the purchase of the ISE on December 23, 2008.

At December 31, 2012, the Company had intangible assets with definitive lives of \$1.2 million, net of \$238 thousand of amortization. The net intangible assets resulted from the purchase of memberships to the Consolidated Tape Association and Unlisted Trading Privileges plan.

Under ASC 350, goodwill and intangible assets with indefinite lives are tested for impairment, at a minimum, on an annual basis, or when an event occurs or circumstances change that signify the existence of impairment. During 2012, the Company tested the goodwill and intangible assets for impairment based on its assessment of fair value of the reporting unit in comparison to its book value and concluded that there was no impairment.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

5. Fixed Assets

(Dollars in thousands)

Fixed assets comprise the following:

Computer software	\$ 19,480
Computer hardware	9,335
Equipment	1,085
Leasehold improvements	5,112
Furniture and fixtures	<u>1,246</u>
	36,258
Less: Accumulated depreciation and amortization	(24,462)
Total Fixed Assets, Net	<u>\$ 11,796</u>

6. Commitments and Contingent Liabilities

The Company and its subsidiaries, from time to time, may be subject to examinations and inquiries by various regulatory and self-regulatory bodies. In the opinion of management, based on consultation with legal counsel, any adverse outcome with regard to these potential matters would not likely have a material adverse effect on the results of operations or the financial position of the Company.

DEI has an obligation under a sublease agreement for office space with Knight Capital Group ("KCG") extended to 2021 with certain rental increases included within the agreement. Aggregate annual rent for office space at December 31, 2012 is listed below:

(Dollars in thousands)

2013	\$ 1,078
2014	1,078
2015	1,078
2016	1,097
2017	1,191
2018 and later years	<u>3,772</u>
	<u>\$ 9,296</u>

Occupancy expense for 2012 was \$1.2 million and is included in other expenses on the Statement of Operations.

The Company has an obligation under a lease agreement for certain hardware extended to 2013. Aggregate annual lease expense for the hardware at December 31, 2012 is listed below:

(Dollars in thousands)

2013	\$ 4,586
2014	3,049
2015	1,366
2016	<u>80</u>
	<u>\$ 9,081</u>

Direct Edge Holdings LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012

Expenses relating to lease agreements for hardware for 2012 were \$7.3 million and included within communication and data processing on the Statement of Operations.

7. Loans and Credit

In December 2012, DEI entered into a credit agreement with the Bank of Montreal. The agreement provides DEI a revolving credit line of up to \$50.0 million until December 7, 2015, the date of termination. The Company is a guarantor of this agreement. Terms include the ability for DEI to choose amongst interest rate options, which each have varying repayment and other terms. In addition to the interest assessed on the borrowed amount, an additional fee will be assessed on the unused portion of the \$50.0 million available as well as a non-refundable upfront fee of 0.5% on the amount of Commitment at the closing date, regardless of whether any credit is use. Under the conditions of the agreement, the Company must maintain a leverage ratio of under 2:1 and a fixed charge covered ratio of at least 1.3:1. During 2012, interest expense related to the revolver, included in the other expense line on the Statement of Operations, was \$59 thousand and the upfront fee of \$250 thousand is contained in other expense line on the Statement of Operations. At December 31, 2012, the Company had \$25.0 million in loans outstanding, the leverage ratio was .7:1 and the fixed charge ratio was 3.5:1.

8. Employee Benefit Plans

Employees of DEI are eligible to participate in a 401(k) profit sharing plan (the "Plan"). In July of 2009, the Company became its sole administrator. Under the terms of the Plan, the Company is required to make contributions to the Plan equal to 100% of the contributions made by each participant, up to certain limits. For 2012, the total expense recognized by the Company and included in Employee compensation and benefits on the Statement of Operations with respect to the Plan was approximately \$582 thousand.

In August 2010, the Company created a Stock Option Plan, in which employees receive stock units as a portion of their total compensation. Awards vest, with certain restrictions on exercisability, over the earlier of three years or upon a change in control. Subject to vesting, awards are exercisable on the earliest of a change in control, an IPO or five years from the grant date. Awards are no longer exercisable ten years from the grant date, and are canceled if employment is terminated before the end of the relevant vesting period.

The Company measures compensation cost related to the option awards based on the estimated fair value of the Company at the date of grant and utilizing assumptions such as the risk free rate and expected life of the option of 6.75 years to determine the grant price per option. For 2012, the total expense recognized by the Company and included in Employee compensation and benefits on the Statement of Operations with respect to the Stock Option Plan was \$1.6 million. The following table summarizes share activity during 2012:

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

	No. of Options (in thousand)	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2011	470	\$ 16.90
Granted	39	14.15
Vested		
Surrendered	(24)	15.82
Outstanding at December 31, 2012	485	16.73

There is \$4.5 million of unamortized compensation related to the unvested awards outstanding at December 31, 2012. The cost of these unvested awards is expected to be recognized over the weighted average remaining life of 2.8 years.

In connection with extraordinary distribution to members in 2011 and 2012, the Company established Restricted Cash Awards and related Restricted Cash Award Agreements for employees who participated in the Phantom Stock Unit Plan ("PSUP"). In December of 2012, the Board of Managers of the Company determined that the payment terms of the 2011 Restricted Cash Awards would be accelerated and paid in December 2012. The Company recorded expense of approximately \$3.4 million in December 2012 related to such payment.

9. Income Taxes

The Company is a multiple-member limited liability company that is treated as a partnership for federal income tax purposes and, accordingly, is not subject to federal and state corporate income taxes. The domestic corporate subsidiaries of the Company, DEI and the Exchanges, are subject to federal, state and local income taxes and will be included in the filing of a consolidated federal income tax return with combined and separate state and local income tax returns being filed.

The Company's provision for income taxes consists of the following:

(Dollars in thousands)

Current	
Federal	\$ 5,848
State	2,335
Total Current Tax	<u>\$ 8,184</u>
Deferred	
Federal	\$ 2,153
State	(977)
Total Deferred Tax	<u>\$ 1,176</u>
Provision for Income Tax	<u>\$ 9,360</u>

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

The difference between the Company's consolidated effective tax rate of 33.6% and the U.S. federal statutory tax rate of 35% is primarily due to an increase for state and local income taxes netted by a decrease for a change in the state rate applicable to deferred taxes and a decrease for income earned at the partnership level, which is not subject to income tax.

DEI has an effective tax rate of 37% and DEH, including DER, has an effective tax rate of 0%.

The Company's deferred tax assets/(liabilities) included in Deferred tax assets on the Statement of Financial Condition are as follows:

(Dollars in thousands)

Deferred Tax Assets	
Goodwill	40,833
Stock Compensation	1,562
Other	<u>1,400</u>
Total Deferred Tax Assets	43,794
Deferred Tax Liabilities	
Goodwill	(558)
Internally developed software	(1,449)
Other	<u>(85)</u>
Total Deferred Tax Liabilities	(2,093)
Net Deferred Tax Asset	<u>41,702</u>

Based on its recent history of cumulative earnings, the Company believes that its net deferred tax assets are more likely than not realizable and accordingly has not recorded a valuation allowance.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

As for liabilities for uncertain tax positions, the Company had no liabilities at the beginning of 2012 and no liabilities for uncertain tax liabilities at year-end. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The Company has open tax years for U.S. federal income tax and various state filings for calendar tax years ending 2008 and forward. The Company is currently under examination by the Internal Revenue Service for its partnership tax return for the tax year ended December 31, 2010. Under this examination, the Internal Revenue Service has issued a Notice of Waiver of Closing, proposing no change to the 2010 return. The Company and its subsidiaries are currently not under examination by any additional taxing jurisdictions.

10. Related Party Transactions

On July 23, 2007, the Company entered into a Transition Services Agreement ("TSA") with KCG. Under the terms of the agreement, KCG would provide certain technological and administrative services, in addition to facility overhead, to the Company as it transitioned from a wholly-owned subsidiary to a majority-owned subsidiary. The contract remained in effect as the Company transitioned from a majority-owned subsidiary to an independent company. In 2012, expense related to the TSA amounted to \$193 thousand which is included in the relevant line items on the consolidated Statement of Operations. In addition to the TSA, the Company holds a sublease agreement for office space with Knight Equity Markets, an affiliate of KCG, which amounted to \$1.1 million during 2012 and is included within other expenses on the consolidated Statement of Operations.

Prior to the merger, the Company entered into a "Regulatory Services Agreement" with ISE LLC. The agreement commenced with the close of the acquisition of the ISE by the Company. Under the terms of the agreement, the ISE LLC would provide certain regulatory oversight services to the ISE Stock Exchange. In November 2010, the Company entered into a "Mutual Services Agreement, under which the ISE and the Company charge each other for mutually provided technological services. During 2012, expense related to the Regulatory Services agreement and Mutual Services Agreement was \$894 thousand, and \$2.1 million respectively. The Company charged the ISE \$813 thousand in relation to the Mutual Services Agreement.

During 2012, three members of the Company were also members of the Exchanges. During 2012, commissions earned, net of rebates paid or accrued to those members, amounted to \$20.3 million and membership and connectivity fees amounted to \$3.8 million.

The Company routes transactions to three member affiliates. These affiliates either rebate or charge fees to the Company for these transactions. During 2012 rebates received or accrued, net of transaction fees paid or accrued amounted to \$934 thousand.

11. Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

DER clears all of its securities transactions through a clearing broker on a fully disclosed basis. Accordingly, substantially all of DER's credit exposures are concentrated with the clearing broker and the Exchanges. Additionally, pursuant to the terms and conditions between DER and the clearing broker, the clearing broker has the right to charge DER for losses that result from a counterparty's failure to fulfill its obligations. DER has the ability to pursue collection from or performance of the counterparty. DER's policy is to monitor the credit standing of the clearing broker and all counterparties with which it conducts business.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

As the right to charge DER has no maximum amount and applies to all trades executed through the clearing broker, the Company believes there is no maximum amount assignable to this right. At December 31, 2012, the Company has recorded no liabilities with regard to the right.

The Company maintains its cash and cash equivalents in financial institutions, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

12. Fair Value Assets and Liabilities

Fair Value Measurement—Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance around fair value establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1—Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available. Active markets are defined as having the following characteristics for the measured asset/liability: (i) many transactions, (ii) current prices, (iii) price quotes not varying substantially among market makers, (iv) narrow bid/ask spreads and (v) most information publicly available.

Level 2—Fair value is based on significant inputs, other than Level 1 inputs, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets and liabilities, quoted market prices in markets that are not active for identical or similar assets or liabilities, and other market observable inputs.

Level 3—Fair value is based on at least one or more significant unobservable inputs for the asset or liability. The inputs reflect the Company's assumptions about the inputs market participants would use in pricing an asset or liability.

The Company did not have any assets or liabilities carried at fair value; however, it is required by US GAAP to disclose the fair value of certain financial instruments that are not carried at fair value. For the following financial instruments the carrying amount equals or approximates fair value: cash and cash equivalents, receivable and payable to brokers and dealers, rebates payable, activity remittance fees payable, accrued compensation expenses and other liabilities and long-term debt.

The Company's Level 1 financial instruments represent cash and cash equivalents.

The Company's remaining financial instruments would be characterized as Level 2.

Direct Edge Holdings LLC and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2012

13. Net Capital Requirements

DER is a member of FINRA and is subject to the Uniform Net Capital Rule ("Rule 15c3-1") of the SEC, which requires the maintenance of minimum net capital, as defined, equal to the greater of \$100,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2012, Direct Edge had net capital of \$8.1 million which was \$7.9 million in excess of the amount required of \$184 thousand. The percentage of aggregate indebtedness to net capital was 34.23%.

DER is exempt from the SEC Rule 15c3-3 under Paragraph (k)(2)(ii) because all transactions are cleared through another broker-dealer on a fully disclosed basis.

14. Subsequent Events

The Company has performed an evaluation of subsequent events through April 19, 2013, which is the date the consolidated Financial Statements were issued. There have been no material subsequent events that occurred during such period that would be required to be recognized in the consolidated Financial Statements as of or for the year ended December 31, 2012.

Exhibit K

Exhibit Request:

This Exhibit is applicable only to exchanges that have one or more owners, shareholders, or partners that are not also members of the exchange. If the exchange is a corporation, please provide a list of each shareholder that directly owns 5% or more of a class of a voting security of the applicant. If the exchange is a partnership, please provide a list of all general partners and those limited and special partners that have the right to receive upon dissolution, or have contributed, 5% or more of the partnership's capital. For each of the persons listed in Exhibit K, please provide the following:

1. Full legal name;
2. Title or Status;
3. Date title or status was acquired;
4. Approximate ownership interest; and
5. Whether the person has control, a term that is defined in the instructions to this Form.

Response:

- | | |
|---------------------------------------|--|
| 1. Full Legal Name: | Direct Edge, Inc. |
| 2. Title or Status: | Corporation |
| 3. Date title or status was acquired: | July 22, 2010 |
| 4. Approximate ownership interest: | 100% |
| 5. Control: | Yes. Direct Edge, Inc. has the power, directly or indirectly, to direct the management or policies of EDGA Exchange, Inc., whether through ownership of securities, by contract, or otherwise. |

Exhibit M

Exhibit Request:

Provide an alphabetical list of all members, participants, subscribers or other users, including the following information:

1. Name,
2. Date of election to membership or acceptance as a participant, subscriber or other user,
3. Principal business address and telephone number,
4. If member, participant, subscriber or other user is an individual, the name of the entity with which such individual is associated and the relationship of such individual to the entity (e.g., partner, officer, director, employee, etc.),
5. Describe the type of activities primarily engaged in by the member, participant, subscriber, or other user (e.g., floor broker, specialist, odd lot dealer, other market maker, proprietary trader, non-broker dealer, inactive or other functions). A person shall be "primarily engaged" in an activity or function for purposes of this item when that activity or function is the one in which that person is engaged for the majority of their time. When more than one type of person at an entity engages in any of the six types of activities or functions enumerated in this item, identify each type (e.g., proprietary trader, Registered Competitive Trader and Registered Competitive Market Maker) and state the number of members, participants, subscribers, or other users in each, and
6. The class of membership, participation or subscription or other access.

Response:

A list of Exchange members is attached in response to Exhibit M. Items 5 and 6 are not applicable since the Exchange maintains only one class of membership.

Exhibit N

Exhibit Request:

Provide a schedule for each of the following:

1. The securities listed in the exchange, indicating for each the name of the issuer and a description of the security;
2. The securities admitted to unlisted trading privileges, indicating for each the name of the issuer and a description of the security;
3. The unregistered securities admitted to trading on the exchange which are exempt from registration under Section 12(a) of the Act. For each security listed, provide the name of the issuer and a description of the security, and the statutory exemption claimed (e.g. Rule 12a-6); and
4. Other securities traded on the exchange, including for each the name of the issuer and a description of the security.

Response:

A list of securities admitted to unlisted trading privileges is attached in response to Exhibit N. Items 1, 3, and 4 are not applicable since the Exchange is not a listing exchange.
